ROBINSONS·MAY

Size: 50,000 Square Feet

Location: Palm Desert, California

Challenge *Aged Hypalon® Roof*

- Aging Hypalon.
- Intense desert UV attack.
- Active retail site.

Solution *AcryShield® Restoration System*

- Seam repair and reinforcing.
- Maintained Cool Roof surface with UV resistant coating.
- Clean and compact job site staging.

AcryShield Restoration Systems are an excellent option to extending the leak-free life of weathered Hypalon showing chalking, exposed scrim, checking and other signs of UV accelerated polymer degradation.
