TrustCommerce[®]

TrustCommerce[®] Integration with Epic

- Proudly serving hundreds of organizations using Epic EHR.
- Seamless, secure user experience when accepting patient payments through Epic (credit card, debit card, digital wallet, Google Pay, Apple Pay, EMV chip card, ACH, and recurring payments).
- Dedicated to reducing PCI DSS scope—remove credit card data from provider environments.
- Accept payments throughout health systems, including patient payments, cafeteria, gift shop, parking, and donations.
- We work closely with Epic to support mutual clients. A dedicated healthcare team is continually working with Epic to enhance the integration and provide collaborative support.

Securely integrated everywhere Epic accepts payments

- Integrated with MyChart, MyChart Mobile, Welcome, Resolute, Willow Ambulatory, and Tapestry.
- Tokenization, Validated P2PE, secure ecommerce for maximum PCI scope reduction.
- Greater flexibility and choice. Keep your current banking relationship or bundle TrustCommerce gateway solutions and merchant processing services for a single source for all your payment needs.
