

"SHARE" the Memories from Your Smartphone  
with

## instax SHARE

Smartphone Printer SP-1

Send smartphone images wirelessly  
(Compatible with iPhones® and Android™ phones)

Credit card size & High quality image

3 easy steps

**Shoot**  
with a smartphone

**Send**  
via the app

Download Fujifilm's instax SHARE application

**Print**  
anytime, anywhere

Takes about 16 seconds

Make copies with the REPRINT button

# Enjoy a variety of templates

Just by downloading Fujifilm's instax SHARE free app, you can have smartphone images printed easily

Search "instax SHARE" App!

Free iPhones and Android™ phones Editing functions

**[Operating environment]** •Android™ phones: Installed with Android Ver. 2.3.3 or later and Google Play. •iPhones: Installed with iOS Ver. 5.1 or later. Some types of phones satisfying the above conditions may not be compatible with instax SHARE even if the app is installed.

Download the app

## Real Time Template

When you select "Real Time Template" and take a photo, the date, place, weather, temperature, and humidity are indicated in the frame. Since you cannot make a copy with this template, the photo will be the one and only in the world.

## Limited Edition Template

Each print is numbered so it looks like a limited item. A memory shared with people you cherish will be even more precious.

## SNS Template (for Facebook and Instagram)

Template for printing images uploaded to social networking (SNS) service. With the profile photo and the number of likes indicated, the print offers great fun in tandem with SNS.

## Square Template

Image only

Text and Image

Template that fits the photo cropped into a square. It is possible to write your feelings and messages to make the memory more vivid.

## Standard Template

The simple instax frame makes the photo stand out.

## More features

### Filters

- Black & White
- Sepia

### Image uploading to social networking (SNS) service

It is possible to upload a framed photo to SNS after printing (except the realtime template photos)
