

# MAXIMIZE THE VALUE OF QLIKVIEW WITH US-ANALYTICS

## Management. Integration. Support.

Advanced Business Intelligence (BI) systems like QlikView require years of expertise to implement and manage effectively. Whether your organization is already leveraging QlikView Business Discovery, or you are looking to make a transition, the BI experts at US-Analytics can help streamline integration and maximize value of QlikView for your business. Working closely with clients, US-Analytics' veteran BI consultants create business solutions and increase value when complex data is involved.

With QlikView, US-Analytics will deliver in-memory analysis and reporting capabilities with one-click access to dynamic, visually rich, interactive dashboards. Consolidate information rapidly from any data source, and search it with Google-like ease.

QlikView allows users to see and know their businesses in new ways, and interactively explore data without limits. Engage your data with blazing speed, and in turn, make more informed, proactive decisions. Unlike traditional BI, QlikView delivers immediate value with payback measured in weeks rather than quarters, years, or not at all.
