AtlantiCare works with Lime Energy to improve energy efficiency

AtlantiCare recently completed an energy efficiency project with Lime Energy, reducing its overall energy consumption by 15 percent and making the health system eligible to participate in New Jersey's Pay for Performance Program, an incentive program available for commercial, industrial, and multifamily buildings to earn rewards based on successful energy reduction.

Lime Energy worked with AtlantiCare to perform energy audits, identify and validate energy measures and implement a comprehensive utility plan at three locations: AtlantiCare Regional Medical Center Atlantic City Campus, ARMC Mainland Campus in Pomona and the AtlantiCare William L. Gormley HealthPlex in Atlantic City.

At ARMC Atlantic City Campus, approximately 10,500 square feet of thin photovoltaic film was applied to exterior windows of the original building; a combination of 7,000 light fixtures and bulbs were replaced throughout the hospital's Harmony Pavilion patient tower; dioxide (O₂) trim kits were installed at the loading dock to minimize carbon dioxide emissions and maximize efficiency of the boilers by reducing natural gas consumption; a new high-efficiency 500 ton chiller was installed; heating, ventilation and air conditioning controls were added to all mechanical rooms; and the exterior underwent weather stripping, door realignment, roof caulking and sealing of all building air infiltration.

Similar upgrades were completed at ARMC Mainland Campus in Pomona and the AtlantiCare William L. Gormley HealthPlex in Atlantic City.

About Lime Energy Co.

As one of the nation's leading providers of clean energy solutions, Lime brings over 30 years of experience delivering economically viable efficiency and renewable energy solutions that benefit communities and protect the environment. Lime's platform includes the energy industry's most accomplished professionals and an expansive geographic footprint with over 400 employees at 20 locations in North America. Lime Energy's services include integrated energy engineering, consulting and the implementation of solutions that enable customers to reduce their facility's

energy consumption, lower their operating and maintenance costs and reduce their carbon footprint. The company's stock is traded on NASDAQ under the symbol LIME. Additional information is available at www.lime-energy.com or by emailing info@lime-energy.com.

Analysts and investors toured the energy efficiency upgrades at AtlantiCare Regional Medical Center Atlantic City Campus as part of Lime Energy's Analyst Day recently held at Caesars Atlantic City.

For information about AtlantiCare programs and services call the AtlantiCare Access Center at 1-888-569-1000, visit www.atlanticare.org or find AtlantiCare on Facebook at www.facebook.com/atlanticare.

AtlantiCare is an integrated system of services designed to help people achieve optimal health. It includes AtlantiCare Regional Medical Center, AtlantiCare Health Engagement, the AtlantiCare Foundation, and AtlantiCare Health Services. Its more than 5,282 employees and 600 physicians serve the community in more than 60 locations. A 2009 Malcolm Baldrige Award winner, AtlantiCare was also included in *Modern Healthcare's* Best Places to Work in Healthcare in 2010. ARMC became the 105th hospital in the nation to attain status as a Magnet™ designated hospital in March of 2004 and was redesignated a Magnet™ hospital in 2008.
