**OSHA General Safety Programs  
Fire Extinguisher Training  
Satisfies 29 CFR 1910.157**

<b>Applicability:</b>	This standard applies to the replacement, use, maintenance, and testing of portable fire extinguishers provided for the use of employees.
<b>Prerequisites:</b>	None
<b>Frequency and Duration:</b>	This training program requires up to 4 hours to complete. A refresher program is required on an annual basis.

**Purpose and Overview:**

Safety Training Services, Inc. will conduct a training program in accordance with the OSHA Fire Extinguisher Standard (29 CFR 1910.157). This program will familiarize employees with the general principles regarding the use of a fire extinguisher and the hazards involved in fighting an incipient stage fire. The training will also include the following:

- Demonstrate the appropriate use of equipment to employees who have been designated to use firefighting equipment as part of the company's emergency action plan.

**Training Materials: Each participant will receive copies of the presentation materials, and a certificate of completion will be awarded at the conclusion of the session.**
