

Real Experience. Real Training. Real Results.<sup>SM</sup>

**Hazardous Waste Operations  
First Responder (Awareness Level)  
Satisfies 29 CFR 1910.120(q)(6)(I)**

**Applicability:**

All employees who are likely to witness or discover a hazardous substance release and who can initiate an emergency response sequence by notifying the proper authorities of the release. These employees are not required to clean up a hazardous substance.

**Prerequisites:**

None

**Frequency and Duration:**

This training program requires 4 to 8 hours to complete, and refresher training is required annually.

**Purpose and Overview:**

Safety Training Services, Inc. offers a thorough course in hazardous materials training at the first responder awareness level. After attending this course, participants will have:

- An understanding of what hazardous substances are, and their associated risks in an incident.
- An understanding of the potential outcomes associated with an emergency created when hazardous substances are present.
- The ability to recognize the presence of hazardous substances in an emergency.
- Know and Understand how to read a Chemical Safety Data Sheet (SDS)
- An understanding of the role that the first responder plays in the employer's emergency response plan, including site security and control, and the U.S. Department of Transportation's Emergency Response Guidebook.
- The ability to identify the hazardous substances, if possible.
- The ability to realize the need for additional resources, and to make the appropriate notification to the communication center.

**Training Materials: Those attending this training program will receive (1) a training manual that includes a detailed script keyed to overhead graphics and (2) the U.S. Department of Transportation's Emergency Response Guidebook. A certificate and wallet card will be awarded to the participants upon successful completion of the training program.**
