

Real Experience. Real Training. Real Results.SM

**Hazardous Waste Operations
On-Scene Incident Commander Training
Satisfies 29 CFR 1910.120 (q)(6)(v)**

Applicability:	All personnel who will assume control of the incident scene beyond the first responder awareness level require this training.
Prerequisites:	Personnel attending this training must have completed at least 24 hours of training equal to that provided in the hazardous materials operations level course [29 CFR 1910.120(q)(b)(ii)].
Frequency and Duration:	This training program takes 8 hours to complete, and refresher training is required annually.

Purpose and Overview:

Safety Training Services, Inc. offers a thorough course in hazardous materials training at the on-scene incident command level. After attending this course, participants will:

- Understand the Incident Management System and parts of the National Incident Management System (IMS / NIMS)
- Know how to implement the employer's incident command system.
- Know how to implement the employer's emergency response plan.
- Know and understand the hazards and risks experienced by employees working in chemical protective clothing.
- Know how to implement the local emergency response plan.
- Be familiar with the state emergency response plan and the Federal Regional Response Team.
- Know and understand the importance of decontamination procedures.

Training Materials: Those attending this training program will receive a training manual that includes a detailed script keyed to overhead graphics and a certificate and wallet card upon successful completion of the training program.
