# Transform Your Business with the Power of SAP HANA

Make *smarter* business innovations, *faster* decisions, and drive *simplified* business transactions.

**Bramasol SAP HANA Practice** is dedicated to leveraging the latest solutions, innovations and optimizations available for SAP HANA. Our team has deep experience with in-memory computing, operating systems and database migrations (Oracle, DB2 and SQL) coupled with our industry and solution expertise. We work closely with your business to help you identify the lowest risk and cost approach to leverage HANA, providing you with the information and options you need to know to make the decision that's right for your business. Whether migrating your existing solution directly or starting fresh with a new implementation, we partner with you to help choose the right path to ensure rapid success.

### **Bramasol SAP HANA Practice:**

- **Supports you with your migration of SAP Business Warehouse** on Oracle database to HANA. We will empower you with the information gathered through understanding your environment, providing you with what you need to decide what path is the best one for your business.
- **Get results quickly to run COPA (profitability analysis), MRP and CRM 360** in real-time using HANA accelerators so you can benefit from better performance and new capabilities of data analysis. Close your books in hours instead of days, contemplate multiple sourcing scenarios, and react quickly to changes in your supply chain—or have a complete view of your customer, not in a report, but at the point of purchase or service. All of this ignites possible with the power of SAP HANA and Bramasol's extensive solution and industry expertise.
- **Implements and supports SAP Business Suite on HANA. The power of the world's leading business software is taken to new heights through the world's leading technology platform.** As a HANA Ramp Up Partner, we work closely with SAP to provide you the benefits from the latest certifications, technology developments and optimizations to keep your business ahead.
- **Develops HANA specific applications that leverage this revolutionary platform.** We are developing applications that will empower you to take advantage of this new engine. Our applications include customer retention and analytics, strategic analysis, campaign performance, and detailed profitability metrics.
