

# Egg-cellent Décor

**Home Décor Expert Merri always has the simplest yet most creative ways to celebrate the holidays! With a few inexpensive items from Goodwill, you can make your Easter décor really stand out!**

## Baskets

**Instead of the usual Easter “grass,” try something different: cut the fringe off an old chenille bedspread and tuck it into a little basket. If it’s cotton, you could even dye it a pretty pastel shade.**

**Who said you have to use a basket for your Easter egg hunt? Fill a pencil box with loose ribbon to cradle the eggs. Add fancy pens, markers or erasers for an extra treat. The best part? No added calories!**

## Nesting

**For a grown up Easter look, visit your local Goodwill for colorful sequin cord. We used gold and sequined cord. Twist it into little nest shapes. You can make individual nests for each place setting or keep them together as part of your centerpiece.**

## Candlesticks

**If you want to really personalize your eggs, make color photo copies of family members. Be sure to look for “small” heads!**

**Cut out the copies, use water based glue and paste to your colored eggs. You might have to cut little slits around the edge for a smooth finish.**

**Display the eggs in champagne glasses for a unique look!**
