Basic Test Script

1. Record quantities on hand from the Item Ledger for the Plants, Material Numbers and their associated batches and locations for items being cancelled.
2. Cancel the document with the following scenarios:
 - a. Valid and invalid material document number
 - b. Valid material document number with invalid year
 - c. Skip over and enter a line number
3. Check that both a single line and an entire document can be cancelled

Test Script Description: Cancel Material Document

Execution Procedures

ID	Test Case	Expected Result	Pass	Fail
1	Type in a valid document _____ Press the ENTER key	RFGEN will validate and accept the material document entered.		
2	Type in an invalid document _____ Press the ENTER key	RFGEN will validate the material document entered and display an error message – the field will continue to error out until corrected		
3	Type in a valid year _____ Press the ENTER key	RFGEN will validate the year is legal and also applies to the material document.		
4	Type in an invalid year _____ Press the ENTER key	RFGEN will validate the year entered and display an error message – the field will continue to error out until corrected		
5	Type in a valid Line _____ Press the ENTER key	RFGEN will validate and accept the line entered.		
6	Type in an invalid line _____ Press the ENTER key	RFGEN will validate the line entered and display an error message – the field will continue to error out until corrected		
7	Enter no line and press the ENTER key	RFGEN will skip the field and continue.
