## FWMSPUT03 WMS - DIRECTED PUTAWAY

This mobile app directs the user to putaway tasks from Oracle WMS based on user location.

The directed wave pick mobile app assigns and loads tasks which are updated with the information entered upon completion of the transaction. A transaction record is recorded and updated in Oracle E-Business Suite (Oracle Applications).

Note: any of these parameters may be easily adjusted to meet the unique requirements of your company.

### ✓ Validations

Prompt	Oracle Field	Table	Field
Region Permissions			
Picking Region			
Get Assignment	Tasks	wms_waveplan_tasks_temp	transaction_source_line_id
Get Receipts			
Received	Trans Temp Id	wms_task_load	Validate_pick_to_LPN, Task_Load
Get Putaway Location			
Stop Assignment			

### ✓ Display

Prompt	Oracle Field	Table	Field
PO #	Purchase Order	po_headers_all	Segment1
PO Item:	Item	mtl_system_items_b_kfv	concatenated_segments
Item#:	Item	mtl_system_items_b	segment1
To Sub:	To Subinv	mtl_secondary_inventories	secondary_inventory_name
To Loc:	To Locator	mtl_item_locations_kfv	concatenated_segments
Qty:	Quantity	wms_wp_wave_lines	requested_quantity
UOM:	UOM	wms_wp_wave_lines	requested_quantity_uom

### ↩ Function Keys

Key	Function
F1	Search Data for Current Field
F4	Exit the mobile app

## Considerations

1. What Oracle EBS version is used to process the Receipt transaction?
2. Are there any WMS Items that can be used?
3. Is Locator control turned on or off?
4. How do you want putaway tasks to be assigned to a floor user?
5. Will the Receiving transactions need additional features for tasks or can they be accepted immediately upon being entered?

## Oracle EBS Forms – Reference

## How Oracle EBS Processing Option Affects RFgen

### Affected RFgen Forms and Transaction Macros

Description	Form Name	Transaction Macro Name
WMS - Directed Putaway	FWMSPUT03	TWMSPUT003

### Setup an RFgen Menu

Implement an RFgen mobile app using EBS Processing Options in an RFgen Menu

Form/Menu	Description to Display
FWMSPUT03	Directed Putaway

## Basic Test Script

1. Select the Responsibility “Whse Mgmt Super User” in order to utilize WMS functionality.
2. Create a Purchase Order for WMS then approve the order.
3. Select the WMS Control Board to query up “All Uncompleted Tasks” for Inbound Source where the Sales Order that was released has now been assigned to tasks of a status with “Pending”.
4. Login to Vocollect with the appropriate User name and password.
5. Select the Selection Transaction, which should be Function 3.
6. In the WMS Control Board, if the user queries the tasks again, the tasks’ statuses are now “Loaded” for the tasks that have been assigned to the user.
7. After the user has gone through all the tasks, the tasks are loaded into the RFgen transaction manager where the User must select to Start Processing the transactions so that they are able to update to Oracle correctly.

## Test Script Description: Selection

### RFgen Input Requirements

Before you begin testing, ensure, for the combination of organization, subinventory and item(s) you will be testing, that the following is setup in Oracle EBS.

- a. Item
- b. System Quantity

A default organization is defined for the application.

## Execution Procedures

ID	Test Case	Expected Result	Pass	Fail
1	Type in a valid purchase order _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the s purchase order entered.		
2	Type in a valid item# _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the item entered.		
3	Type in a valid to subinventory _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the destination subinventory entered.		
4	Type in a valid to locator _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the destination locator entered.		
5	Type in a valid quantity _____ Press the <b>ENTER</b> key	RFGEN will validate and accept the quantity entered.		
6	Type in an invalid purchase order _____ Press the <b>ENTER</b> key	RFGEN will validate and reject the purchase order entered.		
7	Type in an invalid item# _____ Press the <b>ENTER</b> key	RFGEN will validate and reject the item entered.		
8	Type in an invalid To Subinventory _____ Press the <b>ENTER</b> key	RFGEN will validate and reject the destination subinventory entered.		
9	Type in an invalid To Locator _____ Press the <b>ENTER</b> key	RFGEN will validate and reject the To Locator entered.		
10	Type in an invalid quantity _____ Press the <b>ENTER</b> key	RFGEN will validate and reject the quantity entered.		
11	At the RFGEN "Press F5 to Process" Prompt	Complete the tasks and pick confirm the lines, the validated values are inserted in interface table and Oracle EBS transacts and completes tasks .
