

The yellow screen that's tough!

Up To 100 Times Tougher.

Polyurethane tough enough for this 17" minus granite. Isepren® screens have outlasted wire cloth 4 years to 2 weeks in documented cases. TEMA Isenmann's polyurethane resins have the longest wear life of any known screening material.

Over 1,000 different openings available from 0.1mm to 8". Mounting is easy on any deck with interchangeable modular panels, tension type or flat bolt-on screens.

More crushed stone and sand & gravel producers rely on TEMA Isenmann screens than any other. Call for details on our cost effective guarantee.
