Elizabeth Mays, a 26-year veteran of the food service equipment and supplies industry, will join Marlin Steel Wire Products as director of business development, Drew Greenblatt, president of Marlin Steel, announced today.

“ Marlin Steel is thrilled to add the creative talent of Elizabeth Mays to our team. Her innovative approach to product development has helped propel the hotel and restaurant industry. ”

Baltimore, MD March 01, 2013

Elizabeth Mays, a 26-year veteran of the food service equipment and supplies industry, will join [Marlin Steel Wire Products](#) as director of business development, Drew Greenblatt, president of Marlin Steel, announced today.

Ms. Mays previously served as merchandise manager for Hubert Company, an industry leader in food merchandising based in Harrison, Ohio. She specialized in the design and sourcing of high-quality products sold throughout the United States, Canada and Europe. In her new position with Marlin, she will assist key customers in developing and growing unique, solution-based products from steel wire and sheet metal.

“Marlin Steel is thrilled to add the creative talent of Elizabeth Mays to our team,” Drew Greenblatt said. “Her innovative approach to product development has helped propel the hotel and restaurant industry for more than a quarter-century. Her ideas move the needle, so our clients generate bigger profits when Elizabeth is involved.”

Ms. Mays has a bachelor’s degree in marketing from Northeastern University in Boston and a master’s degree in business administration from Xavier University in Cincinnati.

“Having worked with Drew Greenblatt and the team at Marlin for many years on the customer side, I know firsthand their commitment to quality, integrity and exceeding customers' expectations,” she said. “I eagerly embrace these same values and believe together we can continue to make ‘Made in the USA’ a proud symbol across America.”

Marlin Steel Wire Products LLC is a privately held company in Baltimore, Maryland that manufactures precision-engineered [material handling containers for many industries](#), including automotive, aerospace, military, industrial and telecommunications. It exports to 36 nations.
