April 6, 2009

Dear Jeff:

I wanted to express my gratitude to you and your IMS staff for the quality of professionalism, knowledge of product and comprehensive training provided to me and the rest of our staff here at Wild Well Control during this past year.

During the installation of the Primavera P6 software, your personnel worked in harmony with our IT department and our Project Controls staff to create an almost seamless transition. Your teams of instructors have been very knowledgeable of the courses we have taken and have kept the sessions on subject, interesting and, due to their own hands on experiences utilizing the product, the instructors have been able to relate to our needs.

I would highly recommend to anyone considering Primavera products that they utilize the services offered by IMS for their implementation and training requirements

Sincerely,

Lonnie Paul Sandifer  
Senior Project Controls Specialist
