Subject: IMS Letter of Recommendation

To Whom It May Concern:

It is my pleasure to recommend Innovative Management Solutions, Inc. (IMS) to any company seeking assistance in project management and/or project management training.

While attending their training courses on Project Scheduling and Project Management, I learned a great deal of extremely useful information that I can, and will apply to my work everyday. Not to mention the added benefit of simultaneously being prepped for the PMP exam.

The knowledge that I gained from this course has made a significant impact on the effectiveness and quality of my work. It has enabled me to become much more efficient and resourceful by demonstrating the correct way to manage a project, and how to identify and use the tools to do the job right.

It is evident that the instructors at IMS are very well versed in the field of Project Management. Not once throughout the course were they ever vague or unclear on a subject. They always took the time to answer our questions and give a detailed explanation. In fact, one of the things that I like the most, was that they always used real-life examples on subjects that we could relate to in order to make us better understand the subject on hand.

Their instructors are naturals when it comes to public speaking. They were very proactive and always kept my attention. I never once felt bored or uninterested. I think the rest of the class felt the same way. This was by far the best seminar/training course I've ever attended.

Should the need arise, whether it be for further training or consulting services, IMS will be my first choice in my future as a PMP!

Sincerely,

A handwritten signature in black ink, appearing to read 'Alex Vega'. The signature is fluid and cursive, with a large loop at the end.
