A MINISTRY OF THE LUTHERAN
HOME ASSOCIATION

Where the care of the soul is the soul of care

THE LUTHERAN HOME ASSOCIATION:

ST. MICHAEL'S ASSISTED LIVING

Continue your story.

Life is full of beginnings and endings. As we mature, a new chapter begins—one that is full of opportunities. St. Michael's is one positive new opportunity! With a strong history in our community, St. Michael's has been providing care for many generations. We believe in the individual, and in providing the highest quality of care in a comfortable environment that meets your physical, emotional and spiritual needs.

With us, you can continue to write your own story—in your own way.

MISSION STATEMENT

To share Christ's love as we serve the spiritual, physical, intellectual and emotional needs of people entrusted to our care and others whose lives we touch.

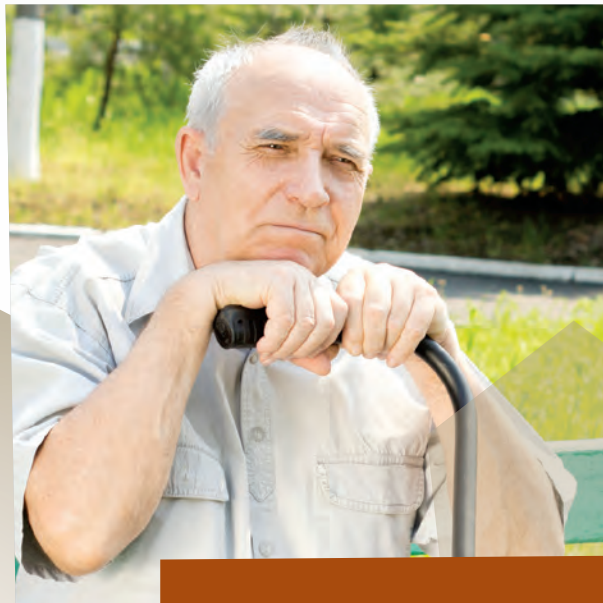

PROMOTING WELLNESS. ENHANCING LIVES.

Nestled in the picturesque bluff lands of the upper Mississippi River valley in Fountain City, Wis., St. Michael's Assisted Living, with its country-like setting and stunning views, has been providing quality senior care and enhancing lives since 1947.

From our assisted living suites to our lovely community spaces, we strive to provide a home-like environment. Our experienced, compassionate staff will adapt services to your specific needs. We encourage independence and tailor services to meet your needs and exceed your expectations.

Care of the soul is also a key part of St. Michael's. Spiritual care is offered through worship services and Bible studies, and a staffed ordained chaplain is available for individual cares and concerns.

These are just a few of the reasons St. Michael's is such a special community. We invite you to discover the rest – schedule your tour today!

PERSON-CENTERED CARE

At St. Michael's Assisted Living, we follow a person-centered model of care. We meet with you and your family to help determine the appropriate care and service for you, whether it is minimal or around the clock.

Our experienced team will create a custom plan that is monitored daily. A registered nurse provides supervision of residents' health care needs and is on-call 24/7/365. Medication monitoring or administration is available and we will assist in coordinating therapy services. In addition, memory care, palliative and hospice services are available.

Our focus is on providing care while preserving your dignity, encouraging independence and enabling freedom of choice.
