

AvidPay—Electronic Payments

Eliminate the Paper Headaches From Your

Entire AP Process. Reduce Costs by 60% or More!

We offer an electronic payment solution that can eliminate 100% of paper Checks from your existing Accounts Payable process within Sage.

Efficiency

Eliminate 100% of paper checks from your payment process. No printing, stuffing, mailing, or signing a check again. Reduce your payment processing costs by 60% or more and eliminate your need to manage vendor data, including accepted payment types.

Visibility

Gain real-time access to the status and approvals of payments 24/7 and receive all payment details for easy tracking, research, and reconciliation.

Simplicity

Your company is only 45 days away from a completely paperless AP and payment process with a proven and easy implementation model for AP and payment automation. You select payments from Sage, just like you do today, but instead of printing them, you actually pay them electronically.

You can transmit payments faster than you and your coworkers can decide where to go to lunch—literally seconds. AvidPay works with all banks and unlimited bank accounts, so the switch is simple.

Security

Increase fraud protection on 100% of payments with included “positive pay” files for all payments.

Control

AvidPay’s pay control enables approvers to have the same level of control over cash management that they do today and to approve based on the same rules their business has for thresholds and double signatures. No payment is transmitted until it receives final approval, so instead of watching it on the corner of your desk, you can watch it virtually in your approval queue from anywhere.

You can be completely paperless in 45 days or less—**guaranteed!**
