Dear Mike,

We installed your Verified Audio Intrusion and Sonavision Live Monitored Video Systems back in 2007 after having no success in stopping or even slowing down our previous B&E activity using barbed wire, alarm beams or security guards. With your systems, we have had multiple captures in both our Langley Head Office and Burnaby sites.

Last Friday, Friday, December 05, your Verified system detected a thief breaking into one of our exterior shop doors at our Langley facility. Police were dispatched immediately, and this thief was detected prior to even gaining entry into our building.

Please send our sincere thanks to the Langley RCMP, their 911 staff and your Sonitrol monitoring team for their great coordination and success!

Sincerely,

Nicole Boehm
