

How successful is your SharePoint deployment?

50%+

More than half of organizations are **stalled**, **struggling** or **failing** with their SharePoint deployment

What are the biggest issues preventing success?

Lack of expertise

46%

Lack of vision and strategy

39%

Poor user adoption

27%

Lack of governance

19%

It's a harsh reality for many

High ambitions but disappointing execution and results

31%

feel they have only achieved a basic deployment compared to their original ambitions.

SharePoint secret to success: experience!

63% of those *struggling, stalled and failing* report they relied only on internal resources

You are nearly **twice** as likely to be successful when you get help from specialist consultants with the right **strategy and SharePoint expertise**
