INTRODUCTION

The 2015 *Federal Credit Supplement (Supplement)* provides summary information about Federal direct loan and loan guarantee programs subject to the Federal Credit Reform Act (FCRA) of 1990, as amended by the Balanced Budget Act of 1997. The credit activities of programs exempt from FCRA do not appear in the *Supplement*, such as the credit activities of certain agencies providing deposit insurance.

Tables 1 and 2 provide 2014 and 2015 subsidy rates, obligations/commitments, the average loan size for direct loan and loan guarantee programs, and programs' respective classification as discretionary or mandatory under the Balanced Budget and Emergency Deficit Control Act of 1985, as amended (BBEDCA). For more information on the BBEDCA and credit reform concepts, see Chapter 9, "Budget Concepts" in the *Analytical Perspectives* volume of the 2015 Budget.

Tables 3 and 4 provide information about the major components of 2014 subsidy rates and about the characteristics of direct loans and loan guarantees, respectively. Tables 5 and 6 provide the same information for direct loans and loan guarantees included in the President's 2015 Budget request. The subsidy rate reflects the net present value cost for each dollar of credit assistance. It is comprised of four components: defaults, net of recoveries; interest; fees; and all other. Loan characteristics describe the terms of the loan agreement between the borrower and the agency or lender, and estimated nominal default and recovery rates. Loan maturity and grace period data are expressed in years; all other characteristics are expressed as a percentage. The grace period data may be for repayment of principal and/or interest based on contract terms.

Tables 7 and 8 provide information on the lifetime reestimates of direct loan and loan guarantee cohorts 1992 through 2013 by agency, bureau, program, and risk category. The tables show the following for each cohort: the original subsidy rate at the point of obligation or commitment; the current reestimated subsidy rate; the change in subsidy rates due to interest and technical updates; dollar reestimates for the current year; net lifetime reestimate data; and lifetime disbursements through September 30, 2013. Some cohorts displayed in the 2015 *Supplement* have closed—there are no outstanding direct or guaranteed loans in the cohort and no further activity is expected. These cohorts are identified with a footnote and will not be displayed in future *Federal Credit Supplement* volumes.

Tables 9 and 10 show the rates at which the 2015 cohorts of direct loans and guaranteed loans are expected to disburse.

Electronic versions of the *Supplement* in both PDF and Excel formats are available at
