Statement of Federal Financial Accounting Standards 32: Consolidated Financial Report of the United States Government Requirements: Implementing Statement of Federal Financial Accounting Concepts 4 "Intended Audience and Qualitative Characteristics for the Consolidated Financial Report of the United States Government"

Status	
Issued	September 28, 2006
Effective Date	For periods beginning after September 30, 2005
Interpretations and Technical Releases	None.
Affects	 SFFAS 1, par. 86 SFFAS 2, par. 56 SFFAS 3, par. 28, 30, 35, 50, 55, 56, 66, 71, 78, 91, and 109. SFFAS 5, par. 117 and 121 SFFAS 6, par. 45, 83, 84, 107 through 111 SFFAS 7, par. 43, 46, 65.1, and 65.3 SFFAS 10, par. 35 SFFAS 18, par, 10 and 11
Affected by	SFFAS 42 affects paragraphs 12 and 24.

Summary

This standard amends standards issued prior to January 2003 to specify disclosure requirements appropriate for the Financial Report of the United States Government (CFR) based on the guidance contained in Statement of Federal Financial Accounting Concepts (SFFAC) 4, Intended Audience and Qualitative Characteristics for the Consolidated Financial Report of the United States Government.

Appendix C: List of Abbreviations	29

Introduction

- 1. Statement of Federal Financial Accounting Standards 24, *Selected Standards for the Consolidated Financial Report of the United States Government*, issued in January 2003 clarified that all existing and future standards apply to all federal entities unless a standard specifically provides otherwise.
- 2. This standard amends standards issued prior to January 2003 to specify disclosure requirements appropriate for the Financial Report of the United States Government (CFR) based on the guidance contained in Statement of Federal Financial Accounting Concepts (SFFAC) 4, *Intended Audience and Qualitative Characteristics for the Consolidated Financial Report of the United States Government*.
- 3. Some disclosure requirements contained in previously issued standards have been modified to allow aggregation and reduce detail for government-wide reporting while other disclosure requirements have been eliminated because of excessive detailed information required that is inappropriate for a government-wide report consistent with the guidance contained in SFFAC 4.
- 4. Appendix B provides a non-authoritative summary of the effect of these changes on disclosure requirements. It presents amended text of existing standards and related new requirements in a table format.
- 5. This standard also contains CFR disclosure requirements for Note 1 Significant Accounting Policies.

Scope

6. This statement provides financial accounting standards for the CFR. It does not change financial accounting standards for component entity reports.

Effective Date

7. This standard is effective for periods beginning after September 30, 2005.

Accounting Standard

Amendments to Existing Standards

- 8. Statement of Federal Financial Accounting Standards (SFFAS) 1, *Accounting for Selected Assets and Liabilities*, is amended by inserting in par. 86 the following final sentence "The U. S. government-wide financial statements need not include this disclosure."
- 9. SFFAS 2, *Accounting for Direct Loans and Loan Guarantees*, par. 56 is amended by inserting the following final sentence "The U. S. government-wide financial statements need not include this disclosure."
- 10. SFFAS 3, Accounting for Inventory and Related Property, is amended as follows:

a. The text "The above listed disclosure requirements are not applicable to the U. S. government-wide financial statements. SFFAS 32 provides for disclosures applicable to the U.S. government-wide financial statements for these activities." is added following the existing text of these paragraphs: Par. 28, 35, 50, 56, 66, 78, 91, and 109.

b. The text "The U.S. government-wide financial statements need not separately report or disclose the difference between the carrying amount of the inventory and its expected net realizable value." is added to par. 30 as the final sentence.

c. The text "The U.S. government-wide financial statements need not separately report or disclose any difference between the carrying amount of the stockpile materials held for sale and their estimated selling price." is added to par. 55 as the final sentence.

d. The text "The U.S. government-wide financial statements are not subject to the disclosure requirements for forfeited property that cannot be sold due to legal restrictions." is added to par. 71 as the final sentence.

11. SFFAS 5, Accounting for Liabilities of the Federal Government, is amended as follows:

a. The text "The U.S government-wide financial statements need not follow the required disclosures described below." is added to par. 117 as the final sentence.

b. The text "The U.S. government-wide financial statements need not separately report or disclose all components of the liability for future policy benefits with a description of each amount and an explanation of its projected use and any other potential uses." is added to par. 121 as the final sentence.

12. SFFAS 6, Accounting for Property, Plant, and Equipment, is amended as follows:

a. The text "The above listed disclosure requirements are not applicable to the U.S. government-wide financial statements. SFFAS 32 provides for disclosures applicable to the U.S. government-wide financial statements for these activities." is added following the existing text for par. 45.

b. [Rescinded by SFFAS 42.]

c. [Rescinded by SFFAS 42.]

d. The text "The U.S. government-wide financial statements need not disclose the sources of cleanup requirements." is added to par. 107 as the final sentence.

e. The text "The U.S. government-wide financial statements need not disclose the method for assigning estimated cleanup costs to current operating periods." is added to par. 108 as the final sentence.

f. The text "SFFAS 32 provides for disclosure requirements for the U.S. government-wide financial statements regarding the unrecognized portion of estimated total cleanup cost associated with general PP&E." is added to par. 109 as the final sentence.

g. The text "The U.S. government-wide financial statements need not disclose material changes in total estimated cleanup costs due to changes in laws, technology, plans, or the portion of the change in estimate that relates to prior period operations." is added to par. 110 as the final sentence.

h. The text "The U.S. government-wide financial statements need not disclose the nature of estimates and information regarding possible changes due to inflation, deflation, technology, or applicable laws and regulations." is added to par. 111 as the final sentence.

13. SFFAS 7, Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting, is amended as follows:

a. The text "The U.S. government-wide financial statements need not break out gross costs of providing goods, services, benefit payments, or grants that did not earn exchange revenue, separately from those programs that earned exchange revenue." is added to par. 43 as the final sentence.

b. The text "The above listed disclosure requirements are not applicable to the U.S. government-wide financial statements." is added following the existing text for par. 46.

c. The text "The U.S. government-wide financial statements need not disclose factors affecting collectibility and timing of categories of accounts receivable and the amounts involved." is added to par. 65.1 as the final sentence.

d. The text "The U.S. government-wide financial statements need not disclose cumulative cash collections and refunds by tax year and type of tax for the reporting period and for sufficient prior periods to illustrate (1) the historical timing of tax collections and refunds, and (2) any material trends in collection and refund patterns. SFFAS 32 provides for disclosures applicable to the U.S. government-wide financial statements." is added to par. 65.3 as the final sentences.

- 14. SFFAS 10, *Accounting for Internal Use Software*, par. 35 is amended by inserting the text "The above listed disclosure requirements are not applicable to the U.S. government-wide financial statements. SFFAS 32 provides for disclosures applicable to the U.S. government-wide financial statements for these activities." is added following the existing text for par. 35.
- 15. SFFAS 18, Amendments to Accounting Standards for Direct Loans and Loan Guarantees, is amended as follows:

a. The text "The U.S. government-wide financial statements need not disclose a reconciliation between the beginning and ending balances of the subsidy cost allowance for the outstanding direct loans and the liability for outstanding loan guarantees reported in the U.S. government-wide financial statements." is added to par. 10 as the final sentence.

b. The text "The above listed disclosure requirements are not applicable to the U.S. government-wide financial statements. SFFAS 32 provides for disclosures applicable to the U.S. government-wide financial statements for these activities." is added following the existing text for par. 11.

Disclosure Requirements Applicable to the U.S. Government-wide Financial Statements

Inventory

- 16. The U.S. government-wide financial statements should include the following disclosures¹:
 - a. broad descriptions of inventory categories,

¹Disclosure is "Reporting information in notes or narrative regarded as an integral part of the basic financial statement."

- b. a general reference to component entity² reports, and
- c. balances for each of the following categories of inventory:
 - 1. inventory held for current sale,
 - 2. inventory held in reserve for future sale,
 - 3. excess, obsolete, and unserviceable inventory; and
 - 4. inventory held for repair.

Operating Materials and Supplies

- 17. The U.S. government-wide financial statements should include the following disclosures:
 - a. broad descriptions of operating materials and supplies categories,
 - b. a general reference to component entity reports, and
 - c. balances for each of the following categories of operating materials and supplies:
 - 1. operating materials and supplies held for use,
 - 2. operating materials and supplies held in reserve for future use, and
 - 3. excess, obsolete, and unserviceable operating materials and supplies.

Stockpile Materials

- 18. The U.S. government-wide financial statements should include the following disclosures:
 - a. broad descriptions of stockpile material categories,
 - b. a general reference to component entity reports, and

² The term "component entity" is used to distinguish between the U.S. Federal government and its components. The U.S. Federal government is composed of organizations that manage resources and are responsible for operations, i.e., delivering services. These include major departments and independent agencies, which are generally divided into sub organizations, i.e., smaller organizational units with a wide variety of titles, including bureaus, administrations, agencies, and corporations. (SFFAC No. 2, *Entity and Display*, paragraphs 11-12)

- c. balances for each of the following categories of stockpile materials:
 - 1. stockpile materials, and
 - 2. stockpile materials held for sale.

Seized Property

- 19. The U.S. government-wide financial statements should include the following disclosures:
 - a. a broad description of seized property, and
 - b. a general reference to component entity reports.

Forfeited Property

- 20. The U.S. government-wide financial statements should include the following disclosures:
 - a. a broad description of forfeited property, and
 - b. a general reference to component entity reports.

Foreclosed Property

- 21. The U.S. government-wide financial statements should include the following disclosures:
 - a. a broad description of foreclosed property, and
 - b. a general reference to component entity reports.

Commodities

- 22. The U.S government-wide financial statements should include the following disclosures:
 - a. a broad description of commodities, and
 - b. a general reference to component entity reports.

Property, Plant, and Equipment

23. The U.S. government-wide financial statements should include the following disclosures:

- a. a broad description of PP&E,
- b. the cost, associated accumulated depreciation, and book value by major class, and
- c. a general reference to component entity reports.

Deferred Maintenance

24. [Rescinded by SFFAS 42.]

Cleanup Cost

- 25. The U.S. government-wide financial statements should include the following disclosures:
 - a. a broad description of cleanup cost,

b. the unrecognized portion of estimated total cleanup costs associated with general PP&E, and

c. a general reference to component entity reports.

Taxes

26. The U.S. government-wide financial statements should disclose the cumulative cash collections and refunds by tax year and type of tax for the reporting periods.

Direct Loans and Loan Guarantees

- 27. The U.S. government-wide financial statements should include the following disclosures:
 - a. a broad description of direct loan and loan guarantee programs,
 - b. the face value of loans outstanding for direct loan and loan guarantee programs,

c. the long term cost³ of loans and guarantees outstanding for direct loan and loan guarantee programs,

 $[\]frac{3}{3}$ "Long-term cost of direct loans and loan guarantees" is the sum of (1) the subsidy cost allowance for post-1991 direct loans, (2) the liability for post-1991 and pre-1992 loan guarantees, and (3) allowance for uncollectible amounts for post-1991 direct loans and loan guarantees.

- d. net loans receivable for direct loan programs,
- e. the amount guaranteed by the Government for guaranteed loan programs,

f. the subsidy expense for the reporting year for direct loan and loan guarantee programs, and

g. a general reference to component entity reports.

References to Component Entity Reports

28. For each "general reference to component entity reports" required in par. 16 through 27 above, it is required that the preparer indicate, in the relevant note, agencies that are disclosing significant detailed information about the item. Selecting individual agencies to refer readers to requires judgment. The preparer should consider both quantitative and qualitative criteria in selecting such agencies.

Required Note 1 on Significant Accounting Policies Disclosures

- 29. Describe the reporting entity and identify its major components. Summarize the accounting principles and methods of applying those principles that management has concluded are appropriate for presenting fairly the entity's assets, liabilities, net cost of operations, and changes in net position. Disclosure of accounting policies should identify and describe the accounting principles followed by the reporting entity and the methods of applying those principles. In general, the disclosure should encompass important judgments as to the valuation, recognition, and allocation of assets, liabilities, expenses, revenues and other financing sources. Disclosures of accounting policies should not duplicate details presented elsewhere as part of the notes to the financial statements.
- 30. In addition, the summary of significant accounting policies should disclose any significant changes in the composition of the reporting entity or significant changes in the manner in which the reporting entity aggregates information for financial reporting purposes. These changes, in effect, result in a new reporting entity, and their impact should be reported by restating the financial statements for all prior periods presented in order to show the new reporting entity for all periods presented.

The provisions of this Statement need not be applied to immaterial items.

Appendix A: Basis for Conclusions

This appendix discusses some factors considered significant by Board members in reaching the conclusions in this standard. It includes the reasons for accepting certain approaches and rejecting others. Individual members gave greater weight to some factors than to others. The standards enunciated in this statement—not the material in this appendix—should govern the accounting for specific transactions, events or conditions.

Background

- 31. The fiscal year 2003 CFR was discussed by the Board members at the April 2004 FASAB meeting. During the discussion of the FY 2003 CFR, several board members indicated a desire for the CFR to be more accessible to the intended audience identified in SFFAC 4: citizens and citizen intermediaries. The members believed this would require a concise presentation. The member representing the Department of the Treasury (Treasury) agreed and explained that the current CFR omitted certain required disclosures for a variety of reasons. Had these disclosure requirements been included the FY 2003 CFR it would have been much less accessible. The member noted that earlier FASAB standards made no distinction between component entity disclosure requirements and CFR disclosure requirements her CFR.
- 32. Members agreed that it would be appropriate to review disclosure requirements established prior to the issuance of SFFAC 4 and tailor CFR disclosure requirements to meet the current concepts. This approach has been adopted for standards developed since SFFAC 4 was issued and the Board indicated a willingness to review past standards if resources were not diverted from ongoing projects. Chairman David Mosso asked Treasury to prepare a list of items it does not consider appropriate to the CFR in light of SFFAC 4.
- 33. At the October 2004 FASAB meeting, the Board considered a proposal prepared by Treasury's Financial Management Service (FMS). The project proposal included a table of items identified for amendment. Based on Treasury's offer to staff the project, the Board agreed to go forward with the project.

Objectives of the Standard

34. At the May 4-5, 2005 FASAB meeting, Board members held a general discussion of the issues associated with the project. SFFAC 4 notes that the CFR has grown in size and complexity

and some have questioned whether the CFR is trying to satisfy too many audiences with different needs in one format. SFFAC 4 provides that citizens and citizen intermediaries should be the audience to whom the CFR is primarily directed and it is particularly fundamental that the CFR be timely and understandable to the primary audience.

- 35. FASAB has been diligent in ensuring that its requirements are consistent with the guidance contained in SFFAC 4 since the January 2003 issuance of SFFAS 24. SFFAS 24 clarified that SFFAS's apply to all federal entities unless a current or subsequent standard specifically provides otherwise. Many earlier SFFAS's were issued without considering the need for less detailed disclosures for the CFR.
- 36. This SFFAS revisits standards issued before January 2003 and amends many of those standards to specify substitute disclosure requirements for the CFR or eliminate certain requirements. In its deliberations the Board assumed that the disclosures being amended were material disclosures but understood that SFFAC 4 was issued to provide guidance in addressing material items since immaterial items are not required to be reported or disclosed by FASAB standards.
- 37. The basis for the Board's actions with respect to this SFFAS emanates entirely from the need to implement SFFAC 4 and do retroactively what the Board has done prospectively since January 2003. However, the Board has indicated that disclosure requirements eliminated or modified for the CFR should not result in allowing the preparer to exclude significant unusual items needed to explain changes in balances between years.
- 38. This standard eliminates or modifies disclosure requirements that are useful for assessing operating performance for a particular program within an agency. For example, disclosures of restrictions on the use of foreclosed property and average holding period for foreclosed property have been eliminated. Also, disclosures of the gross cost associated with exchange revenue and certain pricing policies have been eliminated. If information relevant to assessing operating performance for individual programs were included in the CFR it would not be concise. A concise CFR will be more appealing and therefore more accessible to citizens and citizen intermediaries. The Board believes that including references to other sources of information appropriately balances the appeal of a concise CFR with the disaggregated information necessary to assess operating performance.
- 39. In general, the specific changes reduce the level of detail provided regarding specific assets and liabilities. Such disaggregated information is inconsistent with SFFAC 4. For readers seeking additional detail for particular items, the Board proposes to substitute a reference to component entity reports disclosing significant detailed information about the item.
- 40. Significant accounting policies disclosures are required by this Statement to ensure that the preparer of the CFR informs readers about management's conclusions regarding fair

presentation and the basis of such conclusions. This is intended to address concerns about the sufficiency of disclosures in view of the elimination or modification of disclosures that are required for agency level reporting.

Exposure Draft

- 41. FASAB published the exposure draft (ED) Consolidated Financial Report of the United States Government Requirements: Implementing SFFAC 4 "Intended Audience and Qualitative Characteristics for the Consolidated Financial Report of the United States Government", on October 27, 2005. Upon release of the ED, notices and/or press releases were provided to: The Federal Register, the FASAB News, the Journal of Accountancy, AGA Today, the CPA Journal, Government Executive, the CPA Letter, Government Accounting and Auditing Update, JFMIP News, the Financial Statement Audit Network, the Federal Financial Managers Council, and committees of professional associations commenting on past exposure drafts.
- 42. Twelve letters were received from the following sources:

	FEDERAL	NON-FEDERAL
	(Internal)	(External)
Users, academics, others	0	6
Auditors	2	1
Preparers and financial managers	3	0

Responses to the ED

- 43. The majority of the respondents agreed with the proposed changes to the disclosure requirements for the CFR. Additionally, a majority of respondents felt disclosure requirements for component entity reports should be the same as those required in the CFR.
- 44. Many respondents believed it would be useful to (a) provide a summary report designed for citizen users, (b) develop a central link to agency reports on the website, and (c) study the needs of citizen users. The Board agrees that these are useful ideas and will consider these suggestions as it prioritizes future work.
- 45. Specific concerns raised by respondents related to the omission of disclosures of liabilities not covered by budgetary resources, forfeited property not available for sale due to legal restrictions, details regarding modifications to loans and loan guarantees, and the process

used by the Financial Management Service to prepare the CFR. The Board did not believe that the concerns outweighed the benefits derived from reducing the disclosures required for the CFR.

Board Approval and Dissent

- 46. This Statement was approved for issuance by nine members of the Board. Mr. Dacey dissented.
- 47. Mr. Dacey believes differences in reporting between the CFR and other federal entities should be limited to unique or unusual reporting issues present in the federal reporting environment.
- 48. Mr. Dacey noted that other accounting standard setters do not differentiate reporting requirements between consolidated and component entities. However, based on materiality, the information presented in consolidated financial statements typically is aggregated and in less detail than in component entity financial statements. Mr. Dacey also noted that FASAB standards reinforce that the standards need not be applied to immaterial items.
- 49. Mr. Dacey believes that certain information that is (1) required in component entity reports,
 (2) generally consistent with requirements of other accounting standard setters, and (3)
 material to the CFR, should be required to be presented in the CFR. Such information, some of which is currently reported in the CFR, relates to disclosure of:

a. the general composition of and the basis for determining values for inventory, operating materials and supplies, and stockpile materials,

b. estimated useful lives and depreciation methods for each major class of property, plant, and equipment, and related capitalization thresholds, and

- c. certain credit reform information for material programs, currently reported in the CFR.
- 50. Based on the Government Accountability Office's analysis, Mr. Dacey believes that the incremental information necessary to report the above information and conform with existing FASAB standards would likely be nominal in relation to the current CFR (i.e., less than one page).
- 51. Mr. Dacey notes the "Basis for Conclusions" indicates that if the currently required information was included in the CFR, the CFR would be less accessible to users. In other words, it would lengthen the CFR and make it less appealing to users. However, Mr. Dacey does not believe that the length would be significantly affected. Also, requiring users to

locate and read individual entity financial statements to obtain such information would increase the burden on users of the CFR and likely result in the information being less easily accessible to users. While Mr. Dacey strongly supports the notion that financial information about the federal government as a whole should be presented in a manner that appeals to the broadest range of potential users, he feels there are other means to meet this objective. For example, Mr. Dacey noted that several agencies publish brief summary annual reports, in addition to their financial statements, that are intended for broader distribution and are written to be more understandable to a non-financial user.

Appendix B: Relationship of Amendments to New Requirements

The disclosure items addressed by this statement have either been modified to allow aggregation or rescinded to reduce detail for government-wide reporting consistent with guidance contained in Statement of Federal Financial Accounting Concepts 4 "Intended Audience and Qualitative Characteristics for the Consolidated Financial Report of the United States Government." (SFFAC 4) For purposes of understanding the impacts of the provisions of this statement, this appendix presents the text of amendments to existing standards along with the text of the new requirements applicable to the CFR.

Relat	Relationship of Amendments to New Requirements				
See	Text of Amendment to Existing Standards	See	Summary of Changes		
Par.		Par.			
8	The reporting entity should disclose the amount of current		No CFR disclosure would		
	liabilities not covered by budgetary resources. <u>The U. S.</u>		be required.		
	government-wide financial statements need not include this				
	disclosure. (SFFAS 1.86)				
9	Disclosure is made in notes to financial statements to	27	No CFR disclosure would		
	explain the nature of the modification of direct loans or loan	and	be required regarding		
	guarantees, the discount rate used in calculating the	28	modifications of direct		
	modification expense, and the basis for recognizing a gain		loans or loan guarantees. A		
	or loss related to the modification. The U.S. government-		general reference to		
	wide financial statements need not include this disclosure.		agency reports would be

	Disclosure of cumulative cash collections and refunds by	26	The CFR should disclose
	tax year and type of tax. Cash collections and refunds by tax		cumulative cash
	year and type of tax should include cash collections and		collections and refunds by
	cash refunds for the reporting period and for sufficient prior		tax year and type of tax for
	periods to illustrate (1) the historical timing of tax		the reporting periods.
	collections and refunds, and (2) any material trends in		
	collection and refund patterns. Sufficient prior periods for		
	each type of tax are the periods which end when the		
	statutory period for collection ends. Collecting entities may		
	shorten these periods if evidence for prior tax years		
	indicates that a shorter period would reflect at least 99		
	percent of the collectible taxes. <u>The U.S. government-wide</u>		
	financial statements need not disclose cumulative cash		
	collections and refunds by tax year and type of tax for the		
	reporting period and for sufficient prior periods to illustrate		
	(1) the historical timing of tax collections and refunds, and		
	(2) any material trends in collection and refund patterns.		
	SFFAS 32 provides for disclosures applicable to the U.S.		
	government-wide financial statements. (SFFAS 7.65.3)		
14	The disclosures required by SFFAS No. 6, paragraph 45, for	23,	The CFR should provide:
	general PP&E are applicable to general PP&E software.	28,	(1) the cost, associated
	Thus, for material amounts, the following should be	29	accumulated depreciation,
	disclosed in the financial statements regarding the software:	and	and book value; and, (2) a
	(1) the cost, associated amortization, and book value; (2)	30	general reference to
	the estimated useful life for each major class of software;		agency reports that
	and (3) the method(s) of amortization. The above listed		disclose significant
	disclosure requirements are not applicable to the U.S.		detailed information about
	government-wide financial statements. SFFAS 32 provides		PP&E.
	for disclosures applicable to the U.S. government-wide		
	financial statements for these activities. (SFFAS 10.35)		
	(a==1.0.00)		
			In addition, the CFR should
			disclose significant
			accounting principles used
			and the methods of
			applying those principles.
			appring most principles.

15a	In a note to the financial statements, reporting entities	28	No reconciliation is
	should display a reconciliation between the beginning and		required in the CFR. A
	ending balances of the subsidy cost allowance for		general reference to
	outstanding direct loans and the liability for outstanding		agency reports would be
	loan guarantees reported in the entities' balance sheet. The		provided.
	reconciliation is accomplished by adding to or subtracting		
	from the beginning balance the dollar amounts of the		
	following items: (a) the subsidy expense recognized in the		
	four components as defined in paragraphs 25 through 29		
	(interest subsidy cost, the default cost, the present value of		
	fees and other collections, and other subsidy costs) for		
	direct or guaranteed loans disbursed during the reporting		
	year, (b) the two types of subsidy re-estimates as defined in		
	paragraph 32 (i.e., the subsidy cost allowance for direct		
	loans and the liability for loan guarantees), and (c) other		
	adjustments. For direct loans, the other adjustments include		
	loan modifications, fees received, loans written off,		
	foreclosed property or other recoveries acquired, and		
	subsidy allowance amortization. For loan guarantees, the		
	other adjustments include loan guarantee modifications,		
	fees received, interest supplements paid, claim payments		
	made to lenders, foreclosed property or other recoveries		
	acquired, and interest accumulated on the loan guarantee		
	liability. The requirement to display reconciliation applies to		
	direct loans and loan guarantees obligated or committed on		
	or after October 1, 1991, the effective date of the Federal		
	Credit Reform Act of 1990. Reporting entities are		
	encouraged but not required to display reconciliations for		
	direct loans and loan guarantees obligated or committed		
	prior to October 1, 1991, in schedules separate from the		
	direct loans and loan guarantees obligated or committed		
	after September 30, 1991. The U.S. government-wide		
	financial statements need not disclose a reconciliation		
	between the beginning and ending balances of the subsidy		
	cost allowance for the outstanding direct loans and the		
	liability for outstanding loan guarantees reported in the U.S.		
	government-wide financial statements. (SFFAS 18.10)
