

Fleetwatcher LD Series

Fleet Management for Over-the-Road Vehicles

www.earthwavetech.com 1-800-553-0027

Tracking and managing your vehicles, no matter their size or function, can increase your productivity and profit. Earthwave Technologies' new Fleetwatcher LD Series now provides advanced fleet management solutions for over-the-road vehicles including pick-up trucks, utility trucks, and vans.

Just like our HD Series for off-road construction vehicles, Fleetwatcher LD Series solution utilizes wireless technology to provide you with real-time information including vehicle location, speed, heading, and start/stop times.

Features:

- *Over-the-Air Programmability*
- *Quick and easy installation*
- *Built-in LED's for GPS and cellular status*
- *Certified for AT&T Cellular Network*

Visit the client log-in page on www.earthwavetech.com for your best rate.

Fleetwatcher LD Series provides better asset management and greater productivity while controlling your costs. See how:

	Better Asset Management	Greater Productivity	Better Control over Costs
TRACK:	<ul style="list-style-type: none"> • improve transportation logistics • gain real-time insight into current fleet utilization • find exact locations at any time • stop unauthorized usage 	<ul style="list-style-type: none"> • increase driver productivity • decrease reliance on manual processes 	<ul style="list-style-type: none"> • reduce fuel costs • decrease cost due to theft • streamline preventative maintenance
