

# Introducing the finest Soaker and Sprinkler ever engineered.

(your customers will praise you for it)

Get ready for the next revolution in garden hose technology - *vinyl* Soaker and Sprinkler hoses! These two groundbreaking hoses from Apex feature advanced vinyl construction - delivering softness and flexibility that current soaker and sprinkler hoses can't. Your customers can place them between plants more easily and precisely than ever before. No tangles, no crimps and no doubt about it. For quality, value and innovative engineering, all hoses lead to Apex.

- Consistent soaking action in uneven and uphill flower beds
- Clog resistant even under mulch or soil
- Easy to set flow rate
- No additional stakes or connectors needed

- Rolls out easily, lays flat for easier placement
- Up to 500 sq ft coverage
- Rectangular sprinkler pattern can be used in narrow areas
- Won't puddle or flood
- Clog resistant spray assures consistent pattern
- Lightweight for easy handling
