Inflamax Research Selects OmniComm Systems' eClinical Suite to Enhance Clinical Operations

Fort Lauderdale, FL, July 9, 2013 – OmniComm Systems, Inc. (OTC: OMCM), one of the fastest growing companies in the Electronic Data Capture (EDC) marketplace, today announced that Inflamax Research, a full service Contract Research Organization (CRO), has made a 5 year commitment to utilize OmniComm's eClinical Suite™ to further enhance their clinical operations.

"Our team has a lot of experience with OmniComm's eClinical Suite and we are delighted to utilize it now at Inflamax Research," said Dr. Piyush Patel, CEO of Inflamax Research. "In addition to their innovative technology, we appreciate the exceptional technical support that OmniComm provides and their commitment to their clients. We have very similar philosophies and we look forward to this new partnership."

The OmniComm eClinical Suite is a comprehensive, functionally-rich solution that streamlines clinical trial processes and supports DDE and EDC within one system. It utilizes proven workflows that enable clinical operations to effectively plan each stage of a trial. The eClinical Suite is able to capture, manage, clean, export and lock trials quickly and cost-effectively.

"Inflamax Research is committed to scientific excellence in clinical research," stated Stephen Johnson, President and COO of OmniComm. "We value their partnership and are pleased they have chosen OmniComm's innovative solutions to help further enhance their clinical research operations."

About Inflamax Research

Inflamax Research, headquartered in Toronto, Canada, is a full service Contract Research Organization (CRO) specializing in Proof of Concept as well as Phase I through IV studies in allergy, asthma, ocular disease and dermatology, utilizing EEC technology. Inflamax conducts single and multi-center Environmental Exposure Chamber (EEC) and field studies.
