**FOR IMMEDIATE RELEASE**

**Larix, Denmark's Full Service Contract Research Organization, Selects OmniComm's® TrialMaster® Electronic Data Capture Solution**

Fort Lauderdale, FL, November 20, 2014 - OmniComm Systems, Inc., (OmniComm) (OTCQB: OMCM), a global leading provider of clinical data management technology, is pleased to announce that Larix; a full service Danish contract research organization (CRO) offering statistics, data management and medical writing, has selected TrialMaster electronic data capture (EDC) as its standard EDC technology. Located in the heart of the Denmark's Medicon Valley, one of Europe's preeminent centers for the life science industry, Larix's clinical development services are utilized by an ever increasing number of domestic and international organizations.

"As a leader in biometrics in the Nordic region we are aware that customers want and need the latest innovations that speed up studies, reduce costs and improve quality," said Klaus Juel Olsen, CEO, Larix. "With TrialMaster we can still deliver traditional studies but with the same system deliver innovations such as very fast SDTM data, powerful ad hoc reporting and targeted SDV with risk-based monitoring."

Larix selected TrialMaster EDC to support the business critical needs of their diverse client base that range from single compound biotechs to large pharmaceutical and medical device companies. OmniComm and Larix enjoy a long-standing strategic partnership that provides their clients with exceptional services and superior functionality. The release of TrialMaster 4.2 was a primary reason for Larix's decision. TrialMaster 4.2 includes over 300 new innovative productivity and functionality enhancements. TrialMaster's intuitive user interface and innovative data capture, data management and reporting functionality were significant factors in Larix's selection of TrialMaster. TrialMaster also includes embedded eLearning, enabling researchers to easily learn the system to quickly and accurately initiate new clinical trials.

"OmniComm's continued growth strategy for the European market is led by innovation winning new business and strengthen relationships with existing customers," said Kuno van der Post, senior vice president of business development, OmniComm Systems, Inc. "TrialMaster 4.2 represents a significant advancement in EDC technology enabling organizations, like Larix, to achieve significant improvements in operational efficiency and productivity."
