Issue: Spring

April / 2012

Dear Janet,

Origin International, today announces the launch of its new website: www.originintl.com

"We rebuilt the site to show the full range of our products and solutions, and state the return on investment." said Murray Desnoyer, Origin's CEO. "That's what customers said they wanted to see."

If you haven't already had a chance to preview it, [click here](#). We have a new location for our "customer login" link which is located on the top right corner.

What else you may notice is :

Firstly, it is intended for manufacturing engineers and quality professionals alike.
Secondly, there is a detailed module by module description of the entire suite of CheckMate software products and *thirdly*, there is a focus on the applications with solutions CheckMate provides. Over time we will be featuring more customer case studies that you may find helpful.

As usual, we welcome any feedback you may have to make your browsing experience on our website a positive one.

CHECKMATE GAUGE R&R EXCEL REPORT TEMPLATE

CheckMate Gauge Repeatability & Reliability Excel Report

Origin brings Gauge R&R into the world of CheckMate. The excel reports are used with your CheckMate Reporting module. Just follow these 4 easy steps..

1. Decide which features to use for the Gauge R&R (easiest done in the Programming Browser)
2. Decide which toleranced components of the features to use for the Gauge R&R (PPAP switches recommended) (easiest done in the Programming Browser)
3. Load CMM Results and define the Gauge R&R attributes using CMGROUP [REPORTS]
4. Go into Excel Default's Screen and select the Gauge R&R report and click the CREATE button (assuming you have selected the appropriate switches)

On Feb 28th, our tech expert, Cecil, did a webinar on the new report. Customers on ASP can [click here](#). Customers who are on CheckMate's Annual Support Plan who are interested in using this report, will require CheckMate version 12.1.227 or later and Microsoft Excel, as well as Gauge R&R codes.

Call us at 1-800-269-2509 or email sales@originintl.com if you have any questions.

CHECKMATE AFTER CLASS

Origin International provides webinars for CheckMate customers with an annual support plan. These webinars cover applications, procedures, advance commands that time does not allow in a standard training class.

These Webinar sessions are online training sessions that you can either: 1) register to view live or 2) download and view at your convenience.

If you missed the after class webinar [Click Here](#) to Download to view at your own convenience.

UPCOMING WEBINARS:

Title: CheckMate Excel Reports 2012

This webinar will review all the required settings and default screens related to creating CheckMate's Filled Excel Report Templates.

Date: Thurs. May 31st @ 11am to Noon - [Click Here](#)

Register for the meeting.

Once the host approves your request, you will receive a confirmation email with instructions for joining the meeting.

Note: If you already registered for this meeting, you do not need to register again.

THE CHECKMATE CHALLENGE

Tell Us Your Story

We are increasingly seeing dimensional metrology data, made more available and being generated more often on the shop floor in more innovative methods, partly due to the implementation of new technologies.

This is leaving us here, at Origin, musing over the idea of seeing CheckMate reports being downloaded to tablets on the shop floor, upload or incorporate additional data such as "key-in" information from hand checks or data from other operations, and for review in corporate offices and meeting rooms.

If there is a CheckMate user out there who has implemented, or does so in the near future, such a process and willing to share their story with us, they could be the winner of a new iPad or tablet equivalent.

Please contact us at sales@originintl.com with your story and for more details on how to qualify.

Did you Know...

Cecil..Our CheckMate expert says...

Reviewing a new command to automatically condense all surface and trim measurements in a segment. Requires CheckMate 12.1.0225 or newer.

[New Command to Condense](#)

OTHER TECH TIP'S YOU MAY BE INTERESTED IN

1. Reviewing a couple of switches that when enabled, allow for easy updating of labels during editing measurements. [Click Here](#)
2. Creating "ordered" trim measurement around the edge of a part from pre-defined CAD points that the customer gave us. [Click Here](#)
3. A brief Tutorial on creating Road Map Labels in Layout Mode. [Click Here](#)
4. Just installed CheckMate 12.1 into Windows 7 and the tabs don't appear on the Edit Feature Screen. [Click Here](#)
5. How to create a surface measurement in the center of a hole where no surface exists. [Click Here](#)

CHECKMATE 12.1

CheckMate - 12.1-Phase II 227 Update

For customers who log in to our BBS. We have a new folder called CheckMate 12.1 for this new release and other information related to it. ie. updates, how to unblock the help file etc.

Hardware Requirements for CheckMate:

- 32 bit/64 bit capability - able to run Windows XP, Vista or Windows 7
- Minimum 4 gigabytes of RAM
- Ability to do Windows XP hardware simulation

- Multiple Cores - Scanning software uses multiple cores to increase the performance

UPGRADING TO WINDOWS 7

Take Note of the Following:

- The new CheckMate release 12.1 supports both 32 bit and 64 bit.
- We recommend Windows 7 - 64 bit.
- You must have "Administrator" rights
- Change your "Shortcuts" to run as administrator

[Click Here](#) for the application note with more details

(requires a login to our BBS)

WHAT OUR CUSTOMERS HAVE TO SAY...

At Venest Industries, we strive to get it right the first time for our customers. Using our Cmm, I measure difficult features with complicated GD&T. During new product launch, and everyday, it's nice to know Origin's CheckMate support is only a phone call away. I have been using CheckMate support for 4 years and have measured hundreds of different types of features. I haven't come across a feature yet that I haven't been able to measure with the help of Origin's CheckMate support. They go over and above to ensure I can provide our customers with the data they need.
