POINT CLOUD METROLOGY

[Introduction / Click Here](#)

You can create single and multiple part gradient maps of [deviation, average deviation, 6 sigma, Range, Cp and Cpk](#).

You can also produce complete reports for first article inspection, capability studies and PPAPS using softgape programmed with CheckMate.

For more information, call 1-800-269-2509

ANNOUNCEMENT

CheckMate - 64 Bit

The next major release of CheckMate is currently scheduled for the first quarter of 2011. It will be 64 bit and Windows 7 compliant.

Future Hardware Requirements for CheckMate:

- 64 bit capability - able to run Windows XP, Vista or Windows 7
- Minimum 4 gigabytes of RAM
- Ability to do Windows XP hardware simulation
- Multiple Cores - Scanning software uses multiple cores to increase the performance

CHECKMATE AFTER CLASS

Origin International provides webinars for CheckMate customers with an annual support plan. These webinars cover applications, procedures, advance commands that time does not allow in a standard training class.

These Webinar sessions are online training sessions that you can either: 1) register to view live or 2) download and view at your convenience.

If you missed the after class webinar [Click Here](#) to Download and click on Webinars on the left to view at your own convenience.

UPCOMING WEBINARS:

Programming Coordinate Systems with CheckMate

We will be reviewing the concepts and procedures for the different coordinate system types located in the bottom half of the CheckMate "Construct" menu.

Part 1 of 2

June 30, 2011 11:00am to Noon(EST)- [CLICK HERE TO JOIN](#)

Part 2 of 2

Once the host approves your request, you will receive a confirmation email with instructions for joining the meeting.

Did you Know...

Cecil..Our CheckMate expert says...

1) You can generate measurements very easily to measure ribs or openings using CMTHICK or CMRIB found under <MEASURE/WALLSTOCK, CHANNELS AND RIBS>, along with instructional

documentation.

2) <MODIFY/UPDATE WORKVIEW> takes the workview settings of the current open segment and applies it to all other segments in the dwg file.

UPGRADING TO VISTA OR WINDOWS 7

Take Note of the Following:

- Install as Windows 7 - 32 bit system
- MDT2008 use a 32 bit version
- Must have "Administrator" rights
- Change your "Shortcuts" to run as administrator
