ISSUE: SUMMER

JULY 2013

Dear Janet,

This month we are featuring one of our own. Read on about Bob Stone and his contribution. Also, I would like to wish our U.S. customers a Happy Independence Day and to our Canadian customers, hope you enjoyed our Canada Day Eh!

Have a great summer and as usual we would appreciate your comments or feedback.

RECOGNIZING ONE OF OUR OWN

Long time Origin Associate, Bob Stone, was recognized for his contribution to the new QIF set of standards at the recent DMSC meeting at Hilton Head Island in South Carolina.

The *Quality Information Framework (QIF)* standard defines an integrated set of information models which enable the effective exchange of metrology data throughout the entire manufacturing quality measurement process - from product design to inspection planning to execution to analysis. Version 1.0 of two parts of the QIF standard, QMPlans for exchanging inspection requirements, and QMResults for exchanging post measurement results, were approved by the DMSC for progression to an ANSI standard and will soon be available for public review.

Future parts of QIF ...[read more](#)

CHECKMATE GAUGE R&R EXCEL REPORT TEMPLATE

CheckMate Gauge Repeatability & Reliability Excel Report

Origin brings Gauge R&R into the world of CheckMate. The excel reports are used with your CheckMate Reporting module. Just follow these 4 easy steps..

1. Decide which features to use for the Gauge R&R (easiest done in the Programming Browser)
2. Decide which toleranced components of the features to use for the Gauge R&R (PPAP switches recommended) (easiest done in the Programming Browser)
3. Load CMM Results and define the Gauge R&R attributes using CMGROUP [REPORTS]
4. Go into Excel Default's Screen and select the Gauge R&R report and click the CREATE button (assuming you have selected the appropriate switches)

Our tech expert, Cecil, conducted a webinar on the new report. Customers on ASP can [click here](#). Customers who are on CheckMate's Annual Support Plan who are interested in using this report, will require CheckMate version 12.1.227 or later and Microsoft Excel, as well as Gauge R&R codes.

Call us at 1-800-269-2509 or email sales@originintl.com if you have any questions.

CHECKMATE AFTER CLASS

Origin International provides webinars for CheckMate customers with an annual support plan. These webinars cover applications, procedures, advance commands that time does not allow in a standard training class.

These Webinar sessions are online training sessions that you can either: 1) register to view live or 2) download and view at your convenience.

If you missed the after class webinar [Click Here](#) to Download to view at your own convenience from www.originintl.com

Stay Tuned for our next Webinar !

Reseller/Distributor Opportunity

Manufacturing process & inspection software/hardware

Attention resellers: In order to better serve industry needs, Origin is looking to expand its software Reseller/Distributor organizations serving the automotive, aerospace and other metal and precision plastic industries in North America and Globally. Suggestions of organizations our customers may be familiar with are welcome. Reply to Janet.wiaderny@originintl.com

CHECKMATE 12.1 Update -

OriginIntl.com

CheckMate - 12.1 Phase II 283 Update

For customers who log in to our BBS. We have a new folder called CheckMate 12.1 for this new release and other information related to it. ie. updates, how to unblock the help file etc.

Hardware Requirements for CheckMate:

- [32 bit/64 bit](#) capability - able to run Windows XP-32Bit, Vista or Windows 7
- Minimum 4 gigabytes of RAM
- Ability to do Windows XP hardware simulation
- Multiple Cores - Scanning software uses multiple cores to increase the performance

UPGRADING TO WINDOWS 7

Take Note of the Following:

- The new CheckMate release 12.1 supports both 32 bit/64 bit.
- We recommend Windows 7 - 64 bit with "Administrator" rights
- Change your "Shortcuts" to run as administrator
