ISSUE: SPRING

APRIL 2013

Dear Janet,

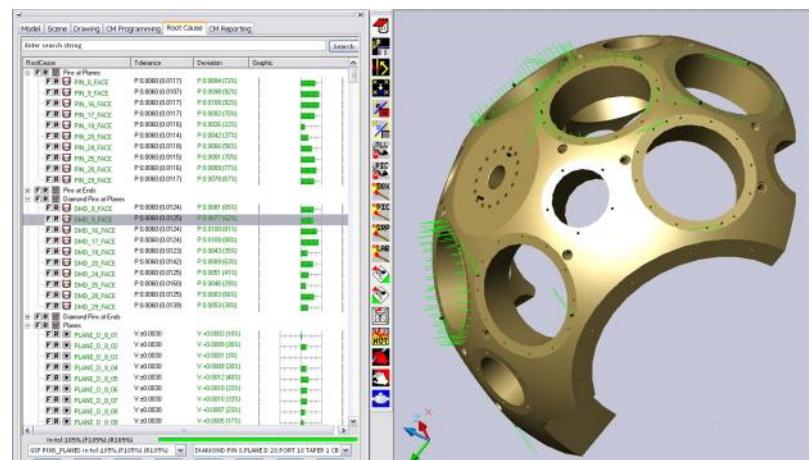

This month we have lots of little goodies to share with you. So read on and as usual we would appreciate your comments or feedback.

APPLICATION FITTING

Metrology Software

The term " fitting" when used in metrology application softwares generally refers to the fitting of a circle or a plane through some number of points, or to fitting a series of points to their nominal counterparts , for form evaluation after a surface compare has been performed, or for other functions such as evaluating a bolt hole patterns in a 2D plane.

Traditional metrology softwares lack the sophistication to "fit" on multiple feature types or apply varying algorithms on individual features and in multiple orientations (planes) simultaneously. This lack of functionality severely limits their use for determining corrective action (root cause problem solving) and renders them useless when evaluating GD&T where the datum reference

frames include mobility on multiple datums.

[CheckMate SoftFit Solver](#) □ on the other hand with it's

- robust set of application specific algorithms
- flexibility of constraint of degrees of freedom
- user controllable task oriented settings
- "what-if" simulation capability
- browser based interface featuring functional grouping and scripting capability

is the tool of choice for quality professionals and manufacturing engineers to meet the needs of the most demanding of corrective action and advanced GD&T requirements.

EVENT - May 15th, 2013

**McMaster Manufacturing
Research Institute Open House**

Host by the MMRI and NSERC CANRIMT
MCMASTER UNIVERSITY, HAMILTON,
ONTARIO

Join MMRI for an open house held May 15, 2013 from 3 to 8pm. Discover innovative machining strategies for maximizing productivity, optimizing quality and reducing costs.

[REGISTER BY MAY 1ST](#)

TRANSMAGIC- IMPORTANT UPDATE

**TransMagic is
excited to
announce the
release of
TransMagic R10!**

Notable features and enhancements in TransMagic R10 include:

- All translators are updated
- Added support for 3D DWG read and write
- Many enhancements to MagicCheck
- New products: PRO, EXPRESS, DIRECT and CREATIVE

Origin International is an official reseller of TransMagic products. [Contact us](#) for more details.

Important things to note:

End of Life Products - TransMagic BASIC and ISTEP
Retired Products - TransMagic ADVANTAGE & ELEMENT
Those on maintenance with Basic can be upgraded to Element for free.

World Metrology Day

Measurements in Daily Life

May 20th-World Metrology Day celebrates the signature by representatives of seventeen nations of [The Metre Convention](#) on 20 May 1875. The Convention set the framework for global collaboration in the science of measurement and in its industrial, commercial and societal application. The original aim of the Metre Convention - the worldwide uniformity of measurement - remains as important today as it was in 1875. [Visit the official website](#) or [learn about metrology careers](#).

CHECKMATE AFTER CLASS

Origin International provides webinars for CheckMate customers with an annual support plan. These webinars cover applications, procedures, advance commands that time does not allow in a standard training class.

These Webinar sessions are online training sessions that you can either: 1) register to view live or 2) download and view at your convenience.

If you missed the after class webinar [Click Here](#) to Download to view at your own convenience from http://r20.rs6.net/tn.jsp?e=0018jtcJtLbtqk75NXezQfOj1TGxkIkpOvZAhiO9acpmfLwbYRUR48ofSxDgZWILTh4fGKI_PqUZgNlefsJiuc-7oGuDCJTHkI5jhD0rqvBQfToGNdArTl6pI1T3RMje_cotRBo_tcFDKIGZbkISJ_kjbIVgKXTjyeOogUQtU9U7HufkWF7yp41B3qhMt5DAPOf8rOrEHAQ0LF0hucqnFSzWM1T7w0JqpOdtD09f8TaPi-kgqP6NK4gLg5MHP6c2STD1

UPCOMING WEBINAR

Using CheckMate 12.1 to Create a Program to Certify a Fixture Using the Part CAD Data

Date: Thursday, May 30th, 2013
Time: 11:00 am, EST (GMT-04:00)

Description: Using CheckMate 12.1, this Webinar reviews how to program measurements to check Flush/Gap stanchions, SPC bushings, MMC locators and RFS locators.

[Click here](#) to register for the meeting.

Once the host approves your request, you will receive a confirmation email with instructions for joining the meeting.

Note: If you already registered for this meeting, you do not need to register again.

Reseller/Distributor Opportunity

Manufacturing process & inspection software/hardware

Attention resellers: In order to better serve industry needs, Origin is looking to expand it's software Reseller/Distributor organizations serving the automotive, aerospace and other metal and precision plastic industries in North America and Globally. Suggestions of organizations our customers may be familiar with are welcome. Reply to Janet.wiaderny@originintl.com

CHECKMATE 12.1 Update - OriginIntl.com

CheckMate - 12.1
Phase II 269 Update

For customers who log in to our BBS. We have a new folder called CheckMate 12.1 for this new release and other information related to it. ie. updates, how to unblock the help file etc.

Hardware Requirements for CheckMate:

- 32 bit/64 bit capability - able to run Windows XP- 32Bit, Vista or Windows 7
- Minimum 4 gigabytes of RAM
- Ability to do Windows XP hardware simulation
- Multiple Cores - Scanning software uses multiple cores to increase the performance

UPGRADING TO WINDOWS 7

Take Note of the Following:

- The new CheckMate release 12.1

supports both 32 bit/64 bit.

- We recommend Windows 7 - 64 bit with "Administrator" rights
- Change your "Shortcuts" to run as administrator

[Click Here](#) for more details (*log in to our BBS*)
