

## **GSX Showcases Enhanced Lotus Notes Collaboration Support at Lotusphere 2012**

*All New GSX Monitor & Analyzer targets decision makers with improved forecasting, monitoring, and ease of administration*

Orlando, FL (Lotusphere 2012) – January 10, 2012 — [GSX Solutions](http://www.gsx.com) [www.gsx.com], the global leader in proactive, consolidated monitoring, reporting of enterprise collaboration environments, including [Lotus Notes](#), [Microsoft Exchange](#), [SharePoint](#) and Blackberry Enterprise Server ([BES](#)), today announced the showcasing of a new GSX Monitor & Analyzer release at [Lotusphere 2012](#). This newest release is even more powerful, giving managers and decision makers the functionality they need to improve forecasting and responsiveness.

The latest GSX Monitor & Analyzer release provides an exciting new set of features that meet the management challenges of enterprises using Notes, Sametime, Traveler or Quickr for critical business services.

Major features include:

- Plug and play ease of use, including a global server configuration wizard with multiple time zone support.
- New Change Monitoring Module that tracks every change in a distributed IT environment and assures audit-verifiable policy compliance.
- Automated GSX Analyzer IT forecasting that identifies emerging issues, helps you identify potential future issues and anticipate them before they happen, and gives you value added quantifiable metrics that are crucial for capacity planning.

“This new release reflects our philosophy to put the user experience at the center of development, and deliver services in an intuitive way,” said Antoine Leboyer, CEO of GSX. “We invest a huge effort to go beyond server tracking to proactively address potential issues for our thousands of loyal customers throughout the world.”

### **Exhibiting at Lotusphere 2012**
