DATACARD® ID WORKS® STANDARD IDENTIFICATION SOFTWARE

With separate packages for design, production, reporting and administration, ID Works Standard identification software lets you distribute tasks effectively and pay only for the features you need at each workstation.

Advanced software for your ID card program

Datacard® ID Works® Standard identification software delivers a user-friendly set of tools for fast and flexible card design, simple yet secure card production or a combination of these capabilities. Discrete packages for design and production allow you to manage these functions at separate workstations.

Powerful, modular platform

• **Intuitive design tools.** With ID Works Standard Designer software, you can design cards, reports and production forms quickly and easily. Shape drawing, transparent backgrounds and ghost images help customize cards. The software also allows you to integrate production forms with ODBC-compliant, multiple-table databases.

• **Enhanced operational productivity.** ID Works Standard Production software makes it easy to capture images, enter and retrieve data and print cards and reports separately from the design package. User-friendly features include predefined list fields, drop-down menus and data-driven card selection. The software also offers smart card support (proximity plug-in) to simplify smart card personalization management.

• **Smooth integration.** The software leverages a wide range of Datacard® desktop card printers, including Datacard® SP Plus Series card printers, as well as many other brands. It also supports the Tru™ Signature solution for signature capture.

Standard Features

Flexible card, report and production form design
- User-defined card size (CR50, CR80, Custom)
- Auto-create production form
- Shape drawing support
- Font sizing and colors
- Multiple field selection, alignment and formatting
- Copy card and report designs between projects

Field types
- Variable text (with masking); Static text (with word wrap option); Photo (with border, ghost or transparent background option); Date; Bar code (21 types); Magnetic stripe; Static and variable graphic (with transparent color option); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Event button

Image management
- In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
- Image and signature storage as BLOBs or files
- Multiple images per record
- Crop and adjust existing photo

Production and data management
- Data-driven production
- Supports multiple-table databases
- Supports Software Developer's Kit
- Proximity card plug-in
- Auto-create Microsoft® Access 2000 database

Database management
- Quick, advanced and stored searches
- Retrieve records from "today"
- Retrieve records from "this week"

Database support
- Oracle® Oracle8i, Oracle9i and Oracle10g®
- Microsoft Access 2000 and later
- Microsoft® SQL Server™ 2000 and 2005
- IBM® DB2® Universal Server 7.1 and 8.1

Help features
- Online user's guide
- Online help
- Help desk support

Security features
- Wizard for managing user account privileges
- USB hardware security key
- Application- or activity-level user security (per computer or system-wide)
- Login timeout feature
- Restrict project access by user
- Secure user audit trail

Compatible with the extensive line of Datacard® card printers

Image capture options
- File input
- TWAIN capture devices
- Video for Windows capture devices
- Tru Signature solution
- ID Works Visitor Manager solution
- Datacard Capture Plug-in Tool

System Requirements

Operating system
- Microsoft Windows 2000, XP (32 or 64 bit), Windows Vista (32 or 64 bit), and Windows 7 (32 or 64 bit) operating systems

Web browser
- Internet Explorer v6.0 or later

Memory
- 512 MB RAM
- 100 MB hard disk space for application (not including database)

Color
- 16-bit color (65,536 colors) (Cameras may require higher color)

Resolution
- 800 x 600 screen resolution (1024 x 768 recommended)

Peripherals
- CD-ROM drive
- Available USB port

SOLUTIONS AND SUPPORT FROM A PROVEN PROVIDER

Only Datacard Group offers the hardware, software, supplies and service required to manage secure centralized and instant card issuance. We understand the consumer demands, security risks and other unique needs of both issuance models. For 40 years, financial card issuers around the world have trusted us to make card issuance fast, affordable and secure. The Datacard Secure Issuance Platform reflects this unmatched experience. You can also optimize your investment with our full line of professional services for planning, data migration, program start-up and ongoing technical support. We provide support in more than 120 countries.
