

iMeet Personal. Professional. On-the-go.

You'll never look at web conferencing the same way again.

iMeet's the one solution for all your web, audio and video conferencing needs.

Host or attend meetings with up to 125 people in an easy-to-use, personalized and elegant user experience.

iMeet's high-quality video and enterprise-class audio platform makes it the professional's choice.

Team meetings, prospect calls and interviews are more engaging and productive.

V.LC.M

iMeet Connect. Chat. Meet. Collaborate.

The iMeet Toolbar for Outlook pre-populates your invite with all the meeting details.

Cloud-based file cabinet allows you to store, access and share files - anytime, anywhere.

Have the meeting call you or your computer – no dial-in or passcodes to remember.

Pass control to a guest in the meeting to drive the presentation.

With a single-click, iMeet DVR with Meeting Minutes captures everything that happens in your meeting.

See who's talking in your meeting with Active Talker.

Easy-to-use host controls put the focus on your guests, not the technology.

Deepen your connection with guests by linking to the integrated social media apps.

You and your guests can screen share in crystal-clear quality.

iMeet's productivity tools, like chat, meeting notes, and recording, keeps everyone informed.

iMeet is brought to you by PGI, a global leader in collaboration and virtual meetings for over 20 years. Our cloud-based solutions deliver multi-point, real-time virtual collaboration using video, voice, mobile, web streaming and file sharing technologies. PGI has a global presence in 25 countries and an established base of over 40,000 enterprise customers, including 75% of the Fortune 100™. In the last five years, we have hosted nearly one billion people from 137 countries in over 200 million virtual meetings.

iMeet offers [Unlimited Audio Conferencing](#) for one low monthly price which can be a significant cost savings over your current service. [Get Started Today. Ask about our FREE 30 day iMeet Trial!](#)
