

Outcomes Research Letter of Agreement

Focus On Therapeutic Outcomes, Inc., hereinafter referred to as “FOTO”, is willing to provide non-proprerty (e.g. MDT module or other proprerty research modules) historical outcomes data to _____, hereinafter referred to as “Researcher”, with agreed upon database and format specifications between FOTO and Researcher, for the purpose of outcomes research, at no expense to Researcher, with the following conditions:

1. The FOTO database is blinded and in aggregate to protect the identity of patients, clinicians and practices participating in the data collection process; and
2. Researcher will hold the FOTO database provided in confidence at all times and enjoin employees, colleagues, consultants, and all other individuals from review of the database, with any and all exceptions discussed with FOTO prior to review of the FOTO database; and
3. FOTO retains full right and opportunity to review all research drafts utilizing FOTO data for the purpose of ensuring that such data are being used appropriately, and may suggest any recommended changes, prior to any publication or submission for publication to any person or entity; and
4. Researcher would identify and acknowledge FOTO as the data source in all research utilizing FOTO data, submitted for publication; and
5. Researcher would identify FOTO as the data source for its outcomes research in all promotional articles, pamphlets, and other publicity targeting increased member participation in outcomes research; and
6. Researcher agrees that the details of each research project, specifically, the particular use of the data, the names of additional researchers and the location of the database, are described in separate attachments to this agreement and incorporated herein by reference; and
7. This agreement commences at the date of this agreement and continues to be valid for the duration of each research project as described in the separate attachments referenced above in paragraph 6. At the end of each research project, Researcher specifically agrees to return the data set to FOTO.
8. Researcher agrees to provide FOTO a formal update of his or her research project (letter single space max 1 page) on an annual basis beginning from the proposed project Start Date or if an extension to the proposed project End Date as described in the separate attachments referenced above in paragraph 6.
9. At the end of each research project, Researcher specifically agrees to remove FOTO’s data set from Researchers’ files.
