

SameDayDelivery.com
Delivery Process Overview

We alert the members of our carrier network that match load requirements and location

1 Customer submits Load Details
(can also view available Jobs)

5 Customer accepts bid and auto-pays with Credit Card or Bank Transfer
(Future EDI Integration)

6 Customer can now view progress of shipment and delivery in real-time on any connected device.

4 We review the bids and select only the best quote to send to our customer

3 Dispatchers or Drivers in our network submit quotes

Real-time status includes your shipments current position, route and destination(s).

Proof of Delivery is updated to our servers instantly through our mobile app
