

The Circle of Life

This program takes the students on a wonderful journey into the animal kingdom and covers many topics in a science curriculum. Such topics as the food chain, habitats, nocturnal, diurnal, and much more are presented in a humorous and energetic manner that guarantees knowledge and retention by the students.

An excellent choice for an educational program or a rewards program, *The Circle of Life* is the first in a series presented by "Safari Greg". This program is constantly praised by schools and libraries as being some of the best programs ever presented at their school. And that's no surprise since he has been voted one of the South's Best Children's Entertainers for six years in a row.

The Circle of Life program uses a combination of live animals, puppets, comedy and magic.
