Motolene Manufacturing Corp.,

PRESCRIPTION 76  
WAS FORMERLY CALLED  
MOT-O-LENE

Gentlemen:

Regarding the merits of your Motolene, will say that we are more than pleased with the results obtained after a 30 day trial of this preparation.

As you know, we have an agreement to take care of and maintain E. P. Murphy & Son's fleet of ten trucks and several passenger cars.

Prior to using Motolene we had one or more of these trucks or cars in our shop almost daily for the purpose of burning carbon, but since using Motolene we have not had a single occasion to remove carbon from one of these vehicles.

In addition to the above E. P. Murphy & Son's bill was \$600. smaller, during the period in which they used Motolene, than during previous months.

The above condition is not exactly pleasing to a garage man, as it is apparently taking bread out of our mouths, but we must honestly give your preparation a large share of the credit which is justly its due.

Yours very truly,

TERMINAL MOTOR COMPANY, Inc.,

MOT-O-LENE

Dear Sir-

The Bottle of MOT-O-LENE I bought of you a few days ago has done what you said it would do. And the reason I am writing you this letter I want you to know I am well pleased with the results I have found in this product. My Motor runs all together different, It runs sweeter than it ever did I also see a big difference in the Milage to the gallon of gasoline. I can take a hill on high gear that I once had to change them into 2nd. Any auto owner who once tries it will never be with out it, And I consider it a great saving to any automobile owner.

I hope you much success in its sales.

I am

Yours Very Truly,

*J. W. Smith*

MOT-O-LENE

Gentlemen:

Some little time ago while in the store you talked me into buying a bottle of your MOT-O-LENE telling me of its great saving to me on my gasoline bill, and I will say this much for it that I consider it a great saving to any man that owns a car for it is certainly giving me one third more mileage to every gallon of gasoline besides giving more life to my car. Can go up most any hill on high where I often had to change to second. I consider it a great saving to me and can certainly speak very highly of it to any man that owns a car. Wishing you and your company success

Yours truly,

H. P. COFFEY,

Field Representative.

Gentlemen;

PRESCRIPTION 76  
WAS FORMERLY CALLED  
MOT-O-LENE

Replying to your inquiry as to the results obtained from the use of Motolene, beg to state that by actual speedometer test, it increased the mileage of my Ford from 16 to nearly 21 miles per ~~gallon~~ gallon. It so happened that the next morning after applying the Motolene, the weather was very cold and I noticed that the engine started much easier than formerly.

I can conscientiously recommend the preparation to all car owners.

Wishing you success, I am

Yours very truly,

H. W. FARMER

MOT-O-LENE

Gentlemen:

Our speciality is over hauling and repairing cars of all makes. I wish to state in cars where the owner says they use Mot-O-Lene there is no carbon in there engine and I believe Mot-O-Lene is a good thing to use in gasoline.
