RE: Letter of Recommendation for Bell Additives, Dee-Zol & Mixigo

I have used Bell Additives Dee-Zol for diesel fuel and Mixigo for unleaded gas for the past eight years.

I first started using this product in 1994 while working for The Department of Transportation in Orlando Florida. In 1998 I left my position as superintendent with the Department of Transportation and I took a position with Flagler County School District as Fleet Manager.

When I came to Flagler County they were not using any fuel additives and had many problems with diesel engine fuel injectors. I called the area representative I used in Orlando and started treating both the diesel and unleaded fuels. I watched our injector problems disappear and we had an increased between 5 to 6 percent on fuel mileage.
