

F-2002

Acid Replacement Cleaner

F-2002 is a powerful yet safe multi-functional cleaner that combines the high cleaning performance of an acid with the mildness of liquid dish soap. This acid replacement was developed to meet the needs and demands of the marketplace for safety without compromising cleaning performance.

F-2002 can be used full strength or with the recommended sprayer or foamer diluted with up to 25 parts of water, depending on the application, the surface and the severity of the soil. Apply **F-2002** and let stand a sufficient amount of time depending on the severity of the soil. Heavy deposits may require light scrubbing with a brush. Wipe with cloth, sponge or swab, and rinse thoroughly with clean water. Spot check on an inconspicuous area first.

PRODUCT FEATURES

- Up to 1:25 concentrate
- As mild as dish soap, with the performance of an acid.
- Removes rust, scale, lime, mold, grease and beerstone from virtually any surface.
- Non-toxic, non-corrosive, non-fuming and biodegradable.
