

Report Number: 28200

WEED GO

LIQUID VEGETATION KILLER

Controls growth for a full season of longer

Use For: Complete vegetation control on non-cropland areas. Such as: Industrial Sites, Fence Rows, Storage Areas and Parking Lots. Apply before weeds emerge or up to 3 months after.

- Nonselective Herbicide with Prometone.
- Oil Based - Water Dilutable Emulsifiable Concentrate.
- Kills by Contact & Root Absorbtion.
- Can be applied to ground prior to laying of asphalt, or may be mixed with cutback asphalts.
- Effective woody plant and brush control.
- Use as a spot treatment.
- Prevents regrowth on driveways, walks, paths, black top and graveled areas, and for creating firebreaks.
- Controls such weeds as: Oxalis, crabgrass, Bermuda grass, spotted spurge, mustard dandelion, wild morning glory, poison oak, honeysuckle and blackberry.
