WASP & HORNET SPRAY

This rapid contact kill and rapid knockdown wasp, hornet and yellow jacket killer contains Tetramethrins and other active ingredients that literally stop pests in flight. Long-range spray allows killing these insects while standing up to 20 feet above the ground away from their nests. Together with the "instant knock down" effect, this prevents the chances of being stung by attacking insects. A powerful blast valve allows rapid delivery and saturation of nests.

Designed for indoor and outdoor use, with the blaster valve and long-range spray, WASP & HORNET SPRAY safely controls wasps and hornets in or on:

Walls & Chimneys, Telephone poles, Trees & bushes, Telephone poles, , Outdoor lighting, Decks, Electric Poles, Schools, Farms, Garages, Outdoor Lighting, Decks, Electric Poles

- Dielectric strength of 41,000 Volts
- Long-range spray
- Contains Tetramethrin and other active ingredients which, in combination, provide rapid contact kill and rapid knockdown of wasps, yellow jackets and hornets.

12 – 20 oz cans per case
