GRAFFITI REMOVER

Graffiti Remover is environmentally friendly and much safer for the user. This unique formulation removes paint, ink, permanent marker and unwanted graffiti from a variety of surfaces.

Diluted with water, it is safe to use on plastic, laminate, metal, carpet, most painted surfaces and salvage cleaning of whiteboards.

Use the GRAFFITI REMOVER undiluted and it penetrates deeply, to remove graffiti from porous surfaces such as brick, stone and concrete.

DOES NOT CONTAIN: Abrasives, Caustics, Alkalis, Aggressive Biocides, Harmful chemicals or Chlorinated solvents

- Non Flammable
- No Ozone Depleting Substances
- Phosphate Free
- No Harmful Chemical Runoff
- Clear, Colorless, Mild Odor

Application:

Apply the graffiti remover with a brush, sponge or cloth and work into the graffiti to be removed. Depending on the age and type of paint, the paint may dissolve instantly or the graffiti remover may need to be left for up to five minutes before removal. The concentration will also impact the time involved in removing the graffiti or unwanted stain. It may be necessary to brush the surface before removing the product. The product is best removed using medium or high pressure water sprays.

For small areas: GRAFFITI REMOVER may be used with a dry or wet cloth or sponge.

For whiteboards: This product is great for removing permanent markers and residual shadowing. Apply a thin coat to the surface and allow to stand for a couple of minutes to soften the permanent marker. Apply a second coat and remove by rubbing with a damp sponge, cloth or non scratch pad. Rinse with clear water.
