

LOAN ORIGINATION SOLUTIONS

Doc Prep Interface Module

The AppMark, Mark IV and BizMark module for interfacing with your doc prep solution.

At Cypress CRIF Lending Solutions, we are dedicated to providing lenders with the tools they need to work faster and smarter, which is why we offer a full range of optional modules for our flagship products - AppMark, Mark IV and BizMark.

One of your primary goals when implementing our Mark IV, BizMark or AppMark solutions is to ensure both accuracy and speed in loan origination. This includes a seamless interface with your doc prep solution. Cypress offers robust doc prep interface solutions to help you save time throughout the entire loan origination process.

LOAN ORIGATION SOLUTIONS

DOC PREP INTERFACE MODULE

Module Details

In the loan origination process, AppMark, BizMark or Mark IV handles the loan application entry, credit bureau retrieval, credit analysis, underwriting, loan approval and customer acceptance. After these tasks are complete, your selected Cypress origination solution interfaces with your doc prep system to transfer account data and produce loan documents. Depending on which Cypress origination solution you use, the Doc Prep Interface Module gives you options for interfacing with several leading loan doc prep systems:

MARK IV

- Wolters Kluwer ARTA[®], Rembrandt[®] and ComplianceOne[®]
- Harland Laser Pro[®]
- FISERV EasyLender[®]

BIZMARK

- Wolters Kluwer Rembrandt[®]
- Harland Laser Pro[®]

APPMARK

- Wolters Kluwer ARTA[®], Rembrandt[®] and ComplianceOne[®]
- Harland Laser Pro[®]
- FISERV EasyLender[®]

Benefits

- Ensures consistency and reduces human error by eliminating redundant data entry - and when the Doc Prep Interface Module is used with the Cypress New Account Setup Module, even more data is transferred
- Improves your customers' experience by shortening the time from application request to loan document production
- Increases efficiency in your funding area by importing data directly into the appropriate loan template or standard
