

 *Product Imaging*

**Product Imaging is CRIF Select's  
loan document imaging solution.**

Enhance your existing indirect lending contract management process by implementing image-based quality assurance solutions with Product Imaging from CRIF Select. Designed to streamline contract packets processing, with Product Imaging, contract image files are available for secure online review, download or permanent storage.

Product Imaging gives credit unions the ability to be more efficient with their document management tasks by allowing lenders to review contract documents online and then download and import them into their host imaging system, saving scanning time and reducing the risk of losing critical loan documents.

## COST-EFFECTIVE BUSINESS PROCESS OUTSOURCING

### IMAGE-BASED SOLUTIONS TO STREAMLINE YOUR LOAN DOCUMENT MANAGEMENT TASKS

Eliminate the need to invest in expensive imaging hardware and software, retrieve stored loan documents easily and conveniently and save time by reviewing contract documents online - all with Product Imaging from CRIF Select.

#### How Does it Work?

Our Product Imaging services begin when we receive the loan packet from the dealership for funding. After undergoing CRIF Select's rigorous quality assurance and funding process, the loan documents are scanned, indexed and cataloged nightly for review the following business day. Using CRIF SelectLink, our suite of convenient online tools, your staff can review contract packets online and respond immediately to missing documents, contract data, signatures and other required information. Product Imaging also allows you to add custom notes to resolution tickets and save time by tracking tickets online in real time.

#### Benefits

- The convenience of a single online system to access all loan contract information
- Real-time tracking of resolution tickets
- Reduced shipping costs by eliminating overnight delivery of paper contracts
- Reduced overhead costs by eliminating the need to open, scan and re-package contract packets internally
- All Product Imaging services are protected by the latest security innovations, which means you can be sure that your documents are protected by the most advanced, round-the-clock monitoring systems available

#### Upgrade Options

##### E PACKET DOWNLOAD

Allows your credit union to download contract documents in electronic format in either batch or individual file formats.

##### eVAULTING SERVICES

With this Product Imaging upgrade, you can archive your loan document images on our secure document management system and access these stored images at any time, 365 days a year.

##### IMAGE ARCHIVE RETRIEVAL SERVICES

For credit unions that don't have the need for ePacket Vaulting, with the Image Archive Retrieval upgrade, you can gain access to archived contract packet images on an as-needed basis.
