

FAS Asset Inventory

Efficiently create and track multiple physical inventories of assets and enjoy complete control over your entire asset inventory at every step with FAS Asset Inventory. This solution allows you to thoroughly track your fixed asset inventory, eliminating lost or stolen assets and reducing insurance and tax overpayments. With automated inventory functionality and built-in reconciliation capabilities, FAS Asset Inventory offers you a complete range of inventory tracking tools so you can effectively achieve tighter control over your fixed assets.

With an easy-to-use wizard that walks you through every step of reconciling your inventory, FAS Asset Inventory makes automating your fixed asset inventory tracking simple. FAS Asset Inventory allows you to efficiently perform physical inventories using state-of-the-art Windows Mobile bar code readers. You can conduct multiple inventories concurrently at various sites and reconcile data at one central location. And, since FAS Asset Inventory comes with over 40 fully customizable fields, you can control data entry with notes and images to describe each asset record. Better still, FAS Asset Inventory integrates seamlessly with FAS 100 Asset Accounting, allowing physical inventory data to be easily reconciled with existing asset data.

Sage customer service representatives are standing by to provide you with top-notch products and service.

COMPREHENSIVE TRACKING

Check-In/Check-Out feature with activity history enables monitoring of mobile assets, and available user fields allow for data entry to be standardized. Photos and documents for each asset can be stored including class, acquisition date, GL asset account, location, and much more, eliminating duplication in asset tracking and facilitating clean audits.

FLEXIBLE CONFIGURATIONS

With the wealth of features offered including configurable data fields, and Asset Templates that promote data integrity and accelerate the process of entering new assets, you can customize your Sage FAS fixed assets solution to work the way you want to.

STREAMLINED INVENTORY

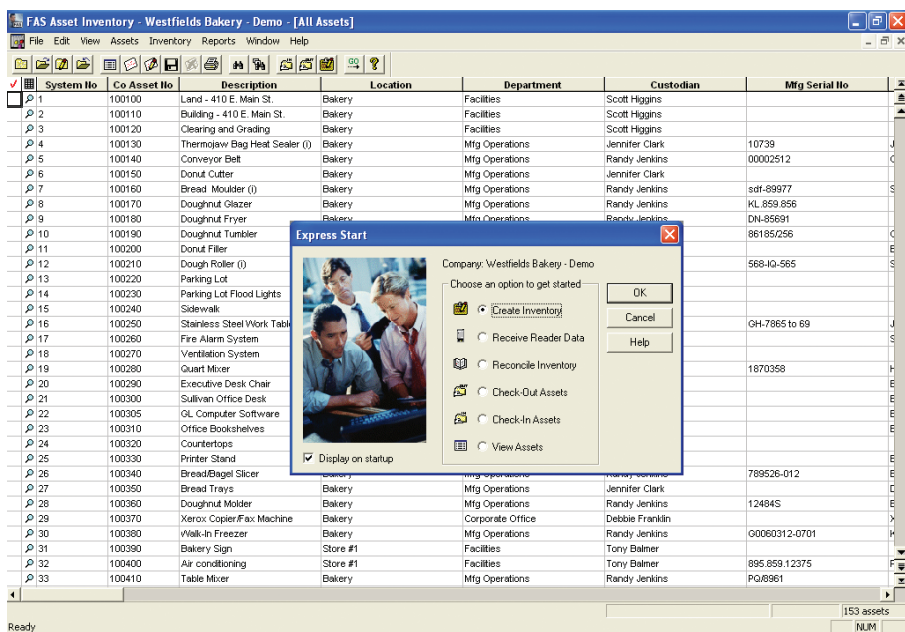

Asset labels and bar code readers complete the inventory solution: optional components, durable, pre-printed bar code labels made of polyester, foil or aluminum and Windows Mobile bar code readers make tracking assets quick, easy, and accurate.

SECURE ACCESS

Security profiles can be defined differently for each individual user that has access to the system, ensuring that only those individuals allowed to change the data are able to.
