### Creasing Matrix Orange Dot M-154 for Medium to Light Stocks:

100-170gsm  
5pt-8pt  
80# Cover or lighter

Each of the 4 female channels has a slightly different width:  
Orange is narrowest, orange/white is slightly wider,  
yellow/white is wider still, and yellow is heaviest.

The female channels are color coded to match the color coded male rubber matrix. For instance, run an orange matrix in either orange channel.
