ENERGY SMART 310 (Auto Feeder) Shredders

Main features

Cross-cut "Touch Screen" Office shredder with Automatic Feeder

- **Auto feed: shreds up to 150 sheets through the special Automatic Feeder**
- Manual feed: Shreds up to 31 sheets of paper at a time (cross cut rated capacity with lubricated cutting knives)
 - Shreds CDs, DVDs, credit cards
- "EPC - Electronic Power Control System: shows the shredding load required to optimize shredding without jams
- Touch Screen Panel
- "AUTOMATIC REVERSE" System in case of jamming
- 24 hour continuous duty motors: no duty cycle or timed cool down periods
- Heavy duty chain drive with steel gears "SUPER POTENTIAL POWER UNIT"
- Carbon hardened cutting knives unaffected by staples and metal clips. New high precision design of cutting knives allows high shred loads with low power consumption
- 2 separate sets of cutting blades: one for paper and one for CDs, DVDs and credit cards
- 2 distinct bags for separating shredded paper from plastic shreds
Shred waist bin 36 gal = aprox 8000 before changing bag
- "AUTOMATIC OILING SYSTEM": automatically lubricates cutting knives
- "ENERGY SMART®" power saving system: machine goes into power saving stand-by mode after just 8 seconds and switches off automatically after 4 hours of non-operation

Overview- Industrial Cross Cut Shredder

Its huge shredding capacity makes it the ultimate industrial shredder. The Kobra Cyclone can shred paper, aluminum cans, cardboard, optical media (CDs/DVDs/Blu-rays), Blu-ray, credit cards, carton boxes, and plastic bottles. Its wide throat size allows easy insertion of all of these materials.

The Kobra Cyclone's shred speed and output depends on the type of items being shredded. This industrial shredder uses a turbine with high speed rotating blades to shred the materials. These don't need any lubrication or oiling. This saves you maintenance costs. The Kobra Cyclone is very easy to use. Just throw in the materials and press the start button. Its design includes a double insulated shredding chamber and a special plastic outer housing. This is to reduce the noise effect. You can easily dispose its huge waste bag by opening the back cover, and taking it out in the built-in trolley.

The Kobra Cyclone also has a manual start option. It automatically goes into stand-by mode to save utility costs. It comes with EFF 1 high efficiency motor that reduces the utility costs.
