Testimonial

For Ian Leppert of Leppert Business Systems (your office evolution experts)

I would like to thank Ian Leppert for the guidance in purchasing my first multi-function system for my office.

I had planned to go to a local big box store and buy a system; however, upon receiving Ian's advice, and recommendations, I was soon convinced I needed a system that was more durable and reliable.

I am writing this testimonial almost two years later, and Ian's advice has held up, as we have had no problems with his product.

From JKR Financial, thank you, and of course, I would recommend your expertise to anyone in need of an office copying system.

Sincerely,

Jurgen Rudolph, CLU, CFP
