

Intellect Customers

The **Intellect 8 BPM Platform** is designed to empower everyone to innovate with Smart Enterprise Apps that are business friendly and user intuitive. Intellect customers use the platform's drag-and-drop functionalities to create, manage and run a variety of **Smart Enterprise Apps** designed to streamline and optimize processes, increase productivity, lower costs, achieve compliance, and improve customer self-enablement.

Organizations can deploy Intellect apps as a **native mobile app on any iOS or Android** device in minutes. Our customers love how Intellect has empowered them to deploy a comprehensive and advanced solution that is tailored to meet their various specific needs and requirements across their enterprise.

A Few Customers Who Innovate With Intellect
