

Would You Date an Introvert?

A: So are you seeing anyone?

B: No, I mean I have been out on a lot of dates over the past six months, but I can't seem to connect with anyone.

A: Oh really? Well what kinds of guys have you been going out with?

B: I mean **most of them have been extroverts** and based on their profiles they looked like they would be a lot of fun, but **they have ended up being obnoxious** and **not people that I want to get to know**.

A: Oh man, that's a bummer. **Well personally I like to date guys who are introverts**.

B: Really? But aren't they kind of shy and quiet?

Good luck with all of the dating!

B: Thanks

A: Yeah but I mean I dated this one guy last spring. **He was quiet at first but once he came out of his shell** he had a lot of interesting and thoughtful things to say. We had a great time together.

B: So are you an introvert yourself?

A: Yeah, I think that I fall somewhere in the middle of the spectrum. **I am more of an ambivert.** When I hang out with people who are extroverts, **they tend to bring that out in me.**

B: Well you have to know yourself when you are out in the dating world, right?

A: Yeah, but in order to do that you just have to meet a bunch of people and see who you connect with.
